NUMBER 245

LLOYD GEORGE QUILTS POST AS BRITISH PREMIER

DOUGHTY WELSHMAN IS TURNED DOWN BY SUPPORTERS, QUILTS

Lloyd George Makes It
Known He Wishes Bonar
Law To Form Ministry To
Succeed Him.

FLOPPED 186 TO 87

London, Oct. 19.—Lloyd George resigned as prime minister of England and the British Empire this afternoon.

He presented his resignation to King George at Buckingham Palace after the Unionist party which met at the Carlton Club had repudiated his ministry.

This marks the end of the Coalition government composed of the Liberals and Unionists which was brought about during the great world war.

It is understood that Lloyd George invited Bonar Law to form a new ministry. It is also understood that it is the intention of His Majesty, King George, to summon Law and name him as prime minister in keeping with British political traditions which always allows the outgoing premier to name his successor.

Bonar Law was the active head of the Unionist party all during the war and up until about a year ago when his health broke down. When the leadership passed to Austin Chamberlain who became party leader and Keeper of the Privy Seal although he was never recognized as the real head of the party.

London, Oct. 19.—The Central News Agency announces that Lloyd George and his Coalition government has resigned. Lloyd George went to Buckingham Palace this afternoon, presumably to hand his resignation to King George.

The King went to the Palace from 10 Downing street this morning after having a conference with his ministers.

The conference was called as the result of the vote taken yesterday at the Carlton Club where the Conservatives voted against the Unionists and their coalition government 186 to 87.

It was recommended by Lloyd George that Bonar Law form a new ministry. Bonar was summoned before His Majesty this afternoon presumably for a conference.

London, Oct. 19.—The Unionist caucus held in the Carlton Club today voted 186 to 87 in favor of continuing the Unionist Conservative party. It is the intention of this party to insist upon the election of a conservative premier if successful.

This amounts to a repudiation of the Coalition party of Lloyd George unless the Premier will announce himself as a conservative candidate even though the head of the Coalition government is now considered as a Liberal.

The Unionist caucus vote indicates that Lloyd George will be asked to resign if the Unionist caucus and Lloyd George will not support Chamberlain.

MARRIED AT CLEARFIELD
Stephen Adam of Coalport and Hazel Kilian of Irvona were united in marriage by Rev. B. J. Hummel at Clearfield, Tuesday Oct. 17, 1922.

Max Faust left Saturday morning to visit friends in Williamsport.

Mrs. Paul Ailer and son Paul Brown Ailer, of Harrisburg, are guests at the home of Alexander Livingston on South Fourth street at present.

COAL OPERATORS OF THIS DISTRICT WHO WILL MEET MINERS

Clark and O'Neill Are
Named to Meet Miners
At Chicago Nov. 14;
Name Fact Presenters.

EIGHT WILL SERVE

At a joint meeting of the Central Coal Association, the Bituminous Coal Operators of Central Pennsylvania and several individual operators not members of either association, held Tuesday afternoon in the rooms of the Central Coal Association in the Lincoln Trust building, Altoona, B. M. Clark, of Indiana, Pa., president of the Bituminous Coal Operators of Central Pennsylvania, and Charles O'Neill, of Altoona, secretary of the Central Coal Association, were chosen as the two operators from the Altoona bituminous district to form with two miners to be chosen the committee from this section of the field which will appear at the joint conference of miners and operators of the United States to be held in the Great Northern hotel, Chicago, on November 14.

The Chicago meeting has been called for the purpose of formulating a method to be followed by the bituminous coal industry in the negotiation of wage scale agreements to become effective April 1, 1923, and the methods so formulated shall be reported by the committee on reorganization to the joint conference to be held in Chicago, on January 3, 1923.

A special committee, consisting of Messrs G. Webb Shillingford, Rembrandt Peale, R. H. Sommerville, B. M. Clark, Charles O'Neill, S. T. Brown, C. B. Maxwell and J. R. Casey was appointed for purpose of adopting plans and a method of procedure for presentation of the Central Pennsylvania coal operators' case to the fact-finding commission recently appointed by President Harding, and the local committee will begin at once the work of gathering data and making it up into brief form for consideration by the president's commission.

At this meeting action was also taken by the operators to bring about an equitable adjustment in distribution of coal cars in the central district of the Pennsylvania system. The operators claim that mines in the district between Altoona and Pittsburgh are not receiving a fair share of cars and the railroad authorities will be asked by the mine owners to have this matter adjusted immediately.

Lieutenant Frank B. Conger, Jr., field representative of Federal Fuel Director Ivens, with offices in the post office building at Altoona addressed the operators at the meeting asking their co-operation in furnishing the fuel director with the data required under the recent act of Congress creating his office.

N. I. PROSECUTOR OFF ON A SECRET MISSION ALL DAY

New Brunswick, N. J., Oct. 19.—Prosecutor Beckman dropped from sight during the night and it is reported that he is secretly following a clue in connection with the murder of the Rev. Edwin Hall and Mrs. E. L. Mills.

It was stated that the rector and his choir singer were murdered behind the little school house on the Red Bank Road about four miles from the abandoned Phillips farm.

If the person under suspicion proves a conclusive alibi, nothing more will be heard of this clue. A number of detectives and State police, who have been working on the case, dropped from sight at the same time as Prosecutor Beckman.

"FIGHTIN' JOE," OF PA., A CONTENDER FOR LEGION HONORS

New Orleans, Oct. 19.—The American Legion is finding it a hard matter to select a new leader to replace the present National Commander, Hanford McNider, from a list of a dozen candidates.

The election Friday was the principal topic of discussion as the convention was called to order this morning.

Supporters of William Deegan of New York were confident that their candidate was assured of election. This was repudiated by the other campaigners as Deegan's chief claim for election was his constant hammering of the Administration on the bonus defeat. It was claimed that he was not positively assured of more than 20 per cent of the 1,000 voters.

Colonel Joseph Thompson, of Pennsylvania, is a strong contender and is considered one of the strongest "favorite sons."

PHILIPSBURG MAN IS MURDERED AT KANE SUMMIT

Kane, Pa., Oct. 18.—As the result of a coroner's inquest conducted here today by Acting Coroner H. Clay Heffner of Bradford, a formal charge of murder has been placed against Chas. McCormick, a woodsman, who has been lodged in the local jail since Sunday following a drunken brawl in which he is alleged to have beaten Harry Reynolds about the head and body, causing injuries which resulted in his death in the Kane Summit hospital at 1:15 p. m. Tuesday.

After an autopsy made by Dr. O. E. Pogan, the coroner's jury found that Reynolds' death was caused by injuries inflicted by a piece of pipe in the hands of Charles McCormick. The jury further recommended that a warrant be issued against the person or persons who sold the whiskey to the woodsman.

A John Doe warrant was issued and local police are confident that the man who, it is claimed, furnished the "booze" will be arrested shortly. When the officers went to his home in the woods, about six miles from here, tonight, he could not be found but avenues of escape are being watched. A charge of manslaughter may be placed against him.

McCormick, who assisted in bringing Reynolds to the local hospital following the fight last Sunday and later gave himself up to the police, attended the inquest today but declined to testify. The only testimony before the jury was that of Charles Bonner and William Reddan, both in the "moonshine party" and eye witnesses.

DuBois Woman Drowns In Shallow Waters Of Sandy Creek In Sandy

Mrs. Samuel Stroble, a young Polish matron whose home was at 408 Sprung avenue, DuBois, was drowned in the waters of Sandy Creek some time during Tuesday night or early Wednesday morning. The body was found lying in water that was not over sixteen inches deep, face upward. The discovery was made by a railroad shop employee named Morgan, who saw the body in the creek and raised the alarm. Shortly afterwards the body was removed to await the action of the authorities.

Mrs. Stroble was the mother of two children, one of whom was born about one month ago.

GREAT ACTIVITY IN POLITICAL REALM LOCALLY THIS WEEK; MEETINGS CALLED

State and Local Candidates Will Appear Before Democrats Tomorrow Eve. at 8 O'clock.

INTEREST IS HIGH

Considerable interest is being manifested throughout this section by our Democratic brethren in the coming political rally to be held at the Court House in Clearfield on Friday evening at 8 o'clock.

It had been thought possible to have Vance C. McCormick, of Harrisburg, address the meeting and his name appears on the bills announcing the meeting but County Chairman Don Geringer was notified by wire today that Mr. McCormick finds it impossible to be present. However, Marshall Thompson, the candidate for Auditor General, of Pittsburgh, and Henry C. Niles, of York, candidate for Superior Court Judge, will be here and together with Congress candidate Hon. J. Frank Snyder, and W. I. Betts, candidate for State Senator from this district, will do the speech making.

C. H. S. SQUAD IS PUT THRU HARD GRILL FOR GAME SATURDAY

By DICK LEIPOLD

With the State College game just one day ahead, Coach Reed sent his charges through one of the longest signal drills of the year. Tuesday's and Wednesday's scrimmage sessions brought to light several minor injuries that the players had sustained in last Saturday's contest. Four varsity men are in poor shape, Capt. Withers being incapacitated with a batch of boils, Ganoce, the 175-pound guard is confined to his home with a slight influenza attack, while the two Johnson boys, both quarterbacks, have been having trouble with "charley horses."

Betts and Moore, sturdy linesmen, have been working out at center with the rest of the line unchanged. Without Hody and Hense Johnson, the Red and Black's backfield lineup is very light, "Midget" Mitchell, Keen Barney and Bob Wilson forming a trio that will not average over 135 pounds, while Brown tips the scales around 155.

Another "pop" meeting will be held at the high school auditorium Friday evening. Speeches will be made by former C. H. S. and college stars. Every student is expected to be present, while all townspeople interested in the local school should be present.

Lock Haven High and Huntingdon High played for the first time in two years Saturday, at Huntingdon. The Lock Haven machine is one of the strongest in the State and held Huntingdon down to one touchdown. It is reported that Lock Haven scored, but the officials would not allow it, so the downriver team left the field. However, it will go on record as a 7 to 0 victory for Huntingdon.

DuBois High School's football eleven traveled over to Indiana Saturday and played the Normal team, losing 38 to 0. Last season DuBois won from the Indiana eleven by a 3 to 0 score, but the Normal squad is much stronger this fall.

ATTENDING STATE CONVENTION

County Commissioners Jesse E. Dale, T. R. Weimer and M. L. Farrell are attending the State Poor Directors' Convention being held at Uniontown this week.

All Precinct Chairmen of Republican Party to Gather at Dimeling this Evening to Plan Fight.

WILL WHOOP 'ER UP

Now that the "frost is on the pumpkin" and the fodder's in the shock" the minds of our captains of politics turn electionward and "boiling" is the condition of the political pot.

In this connection it might be well to add that Republican County Chairman A. L. Edwards, of Osceola, has called all the precinct chairmen for the county to participate in a meeting and banquet to be held at the Hotel Dimeling at 6 o'clock this evening.

The district and county candidates will be present at the meeting for the purpose of meeting the men who will marshal the Republican forces in the different election precincts of the county during this campaign.

Plans will be discussed and outlined and many matters of interest discussed.

Elopers Brought Back; Parties To Eternal Triangle All In Jail

Sheriff Thomas J. Lowell arrived home on the 4:30 B. R. & P. train last evening from Rochester, New York, bringing with him Vincenzo LaRossa and Viola Vallmont Luffuletti, the young couple who left Clearfield on Monday night of last week and were arrested by Rochester detectives upon their arrival in that city a couple of days later.

The couple told the Sheriff they ran away for the purpose of getting married. LaRossa said he knew the girl when he saw her but did not get acquainted with her until after the arrest of her husband. That he proposed an elopement to her and she accepted and away they went. They left Clearfield at 4 o'clock and stayed with an Italian family in Crowsville Monday night. The following morning they set out on foot for DuBois and after getting several "lifts" from autoists en route managed to reach the city and took the night flyer for Rochester.

When they arrived in Rochester the two detectives who picked them up were on duty at the depot looking over incoming travelers. They had not been notified to be on the lookout for the elopers but the appearance of the couple attracted the attention of the detectives and they halted them and after grilling them decided to detain them and notify the Clearfield chief of police.

The girl told the Sheriff that conditions were such that she simply would not live at home, and while she thought more of her husband than she did of LaRossa, the husband was in jail and she decided to go along with LaRossa and would have married him.

The three parties to the unfortunate triangle are now inmates of the Clearfield jail.

PURCHASED VALUABLE BUSINESS PROPERTY

The Clearfield Wholesale Paper and Notion Company has purchased the office building of the Clearfield Machine Shops located on North Fourth street, between Pine and Reed streets. They took possession of the property yesterday. The consideration was \$10,000.

WILL ADDRESS ROTARY CLUB
Borough Solicitor John M. Urey will be the speaker at tonight's meeting of the Clearfield Rotary Club, which will be held at the Hotel Jordan at 6 o'clock.

OLD CONCERN, CLEARFIELD'S PIONEER INDUSTRIAL PLANT, MOVES TO MODERN QUARTERS IN UPPER END OF THE CITY

Clearfield Machine Shops Are Now Housed In
Two Gigantic Brick and Steel Buildings Equipped With All Improved Machinery Necessary

HAVE LARGE YARD AND STORAGE SPACE

One of the first local concerns to become imbued with that spirit of progress and advancement which has marked Clearfield's industrial and commercial life and which has resulted in such a rapid advance and substantial development and enlargement along both these lines the past few years was the Clearfield Machine Shops, Clearfield's oldest industrial plant. When the rapidly increasing business of this concern, which specializes in brick-making machinery and whose product takes front rank the world over, where bricks are being made, simply demanded larger quarters, Mr. Frank B. Reed, the moving spirit in the concern for many years, picked out a location on his property near North Clearfield station and just below Spruce street, and quietly began the erection of a device or appliance. The machine foundry and machine shops at that shops proper occupy the eastern portion in which to house the rapidly developing plant and business. A sidewalk was built into the plant from the Pennsylvania Railroad and when the final finishing touches are placed on the two buildings now very near completion the Clearfield Machine Shops plant will be the largest, most conveniently arranged and most up-to-date concern of its kind in Central Pennsylvania.

The two buildings are so far completed as to allow the moving of the plant from the original location at the corner of Fourth and Pine streets and on Saturday at noon the old plant shut down for the last time and when the noon hour was over gangs of workmen started in to dismantle the old place, which had been in almost continuous operation since the original plant was opened by Messrs. Boynton & Young in 1868. So well did these "wreckers" do their work that by Tuesday noon the major portion of both foundry and machine shop was installed in the new buildings and several of the big machines in operation. Today the old place is entirely dismantled and before the week is over the "old foundry," as it was so long styled, will be but a memory, with the old building in use as a storage or warehouse.

The new plant is made up of two large two-story brick, steel and concrete buildings. The main or larger building, which is 80x200 feet in size, contains the machine shops. It is a most conveniently arranged, commodious place, with all the up-to-date advantages and accessories to such a plant, which includes electric cranes, railroad siding into the plant, elevator and every possible labor-saving and quietly began the erection of a device or appliance. The machine foundry and machine shops at that shops proper occupy the eastern portion in which to house the rapidly developing plant and business. A sidewalk was built into the plant from the Pennsylvania Railroad and when the final finishing touches are placed on the two buildings now very near completion the Clearfield Machine Shops plant will be the largest, most conveniently arranged and most up-to-date concern of its kind in Central Pennsylvania.

The two buildings are so far completed as to allow the moving of the plant from the original location at the corner of Fourth and Pine streets and on Saturday at noon the old plant shut down for the last time and when the noon hour was over gangs of workmen started in to dismantle the old place, which had been in almost continuous operation since the original plant was opened by Messrs. Boynton & Young in 1868. So well did these "wreckers" do their work that by Tuesday noon the major portion of both foundry and machine shop was installed in the new buildings and several of the big machines in operation. Today the old place is entirely dismantled and before the week is over the "old foundry," as it was so long styled, will be but a memory, with the old building in use as a storage or warehouse.

An addition to the west end of this building, which will contain the offices of the concern, will be erected in the early spring, provision already having been made for same, while for the present the offices will be located on the second floor over the blacksmith shop.

The foundry building which parallels the machine shops, with conveniently located connecting corridors, is 62x190, and in addition to the finely equipped foundry on first floor, has second floor utilized for pattern storage room and other departments.

The plant is complete in every particular and represents an investment of several hundred thousand dollars. It is most advantageously located and will mean much toward the development of that section of the town.

Mr. Reed is already providing for that development by establishing a system of drainage in the commons on the opposite side of South Fourth street from the plant, and the future

(Continued On Page Two.)

Wonderful Singers To Visit Philipsburg For Concert This Evening

The Philipsburg Community Service League has accomplished a wonderful lot of good in that community and have plans for even greater constructive work the coming summer. Funds are needed for the working out of those plans and with this end in view the Executive Committee has arranged to bring to Philipsburg tonight "The Chanters," a galaxy of fifty male voices, developed by the Altoona Mystic Shrine. These "chanters" are vocalists of real ability, who sing the old-fashioned songs that mother used to sing, in a manner which has earned for them the very warmest praise wherever they have been heard.

In addition to "The Chanters" and their varied and versatile repertoire, the program also will include a mixed quartette of two male and two female voices, and a soprano soloist of note.

"The Chanters" will appear at the Rowland Theatre this evening. Admission will be 50 cents, \$1.00 and \$1.50. A number of Clearfield people will attend.

CHAS. T. KURTZ,
Chairman.

Let all who can, attend.

Tom Sims SAYS--

Chicago has a grand larceny case and this is not a misprint.

Villa will open a bank, but not the way handits usually do.

McCARTY'S SUNDAY DELIVERIES

The office at the plant will be open until 9 P. M. every Saturday evening and on Sundays from 9 to 10 in the morning for the booking of Sunday dinner for guests.

No orders will be taken after 10 A. M. Sunday for delivery before 10 A. M. If you serve McCarty's for company, you serve something extra fine.

McCARTY'S

PHILIPSBURG MAN

(Continued From Page One)

nesses to the assault in which it is alleged they also participated. Both are being held as material witnesses. The fight was staged near the Kincaid school in the room in which the men were engaged Sunday afternoon. All the men, including Reynolds, were taken to the hospital and McCord and Reynolds were hospitalized for several days.

The fight between the two men was a three-minute fight and McCord was taken to the hospital picked up by a car from a nearby police station. Reynolds about the body. A fractured skull and two broken ribs were disclosed by an examination. After the fight had been rushed to the hospital.

OLD CONCERN

(Continued From Page One)

growth of Clearfield will thus find opportunity for extension in that direction.

The Clearfield Foundry and Machine Shops did much for Clearfield industry and in a business way it is the most. The Clearfield Machine Shops, with its one hundred skilled workmen on its payrolls and a specialized output that is recognized as the "last word" of perfection in the way of brick making machinery, with more than a nation-wide reputation of some, will be of even greater benefit and importance in the future. May unbounded success be the portion of the old concern in its new quarters.

The bottom rungs of the social ladder are all kicked out.

Two faced people are kept so busy looking in both directions they seldom see where they are going.

Flyer at 85

More fun than a barrel of monkeys, more fun than a barrel of monkeys, more fun than a barrel of monkeys.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

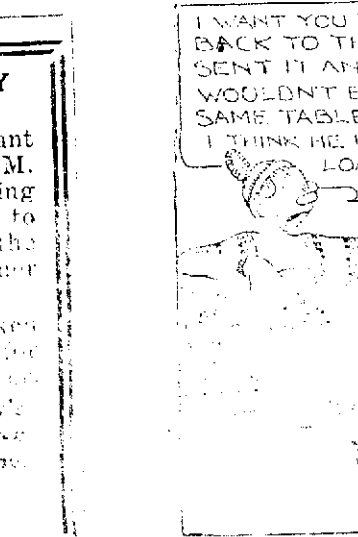

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

BRINGING UP FATHER

EXCIOUS' RETURN TO THIS STATE IS REPORTED

Pittsburgh, Pa., Oct. 19.—John Excnicious has been ordered to take full charge of the office of prohibition enforcement in this city tomorrow morning, according to word which has been received here from Philadelphia.

Excnicious, whose transfer to the Paso was recalled, was sent to this office after it was known that A. L. Melsham divisional chief of Ohio, Indiana and Michigan would be unable to come to Pennsylvania owing to the serious illness of his wife.

Use Pleasure Wisely.

Pleasure is the friend and foe of man. Rightly used, it makes for self-development and progress. Abused, it makes wrecks of humanity, puppets, and weaklings. Thrice happy is he who can use it, enjoy it, and make it his ally to the utmost.—Gibb

In Case of Fire.

Do not pull down the draperies that are on fire and thus spread the flames. Remove all objects nearby and with a wet broom smother the burning pieces as they fall.

PETITION COURT TO DISSOLVE THE DAUGHERTY RULE

Chicago, Oct. 18.—Motion for the dissolution of the Daugherty Injunction restraining the leaders of the Skopercrafts Unions was laid before Judge Wilkerson in Federal Court here today.

Donald Richberg, attorney for the Unions, petitioned the Court on grounds:

1. A large portion of the railroads who asked for the injunction have settled their differences with the men.
2. Conditions as set forth in the petition for the injunction, if they ever did really exist, do not exist at the present time, and that there is no further reason for the restraining order.

Ancient Dentistry.

Dentistry seems to have been practiced on this side of the ocean almost as early as in Europe or Asia. It is quite likely, indeed, that the art of filling teeth was first discovered here. At any rate, pre-Columbian skulls from both Ecuador and Mexico are evidence having teeth richly set with gold and in some instances precious stones.

Banana Juice for Snake Bite.

In snake-infested countries bananas have been exploited for snakebite. The efficiency of this simple remedy with the venom of cobra, rattlesnake and other serpents, trying and a banana juice upon animals bitten by the snakes. In no case could no discover that the alleged "cure" had any beneficial effect.

Diplomacy
"Look here, Charlie," said one young underdog to another, who had been asked to run his eye over a letter which his friend had written to his father, in which there was the inevitable request for money, "you spelled jug, g-u-g!" "I know," said Charlie; "but you see I need the cash and don't want the old man to think I'm putting on airs. That's how it spells it."

DOCTOR ORDERED WOMAN OBEYED

Took Lydia E. Pinkham's Vegetable Compound and is Now Well

Chicago, Illinois.—"You surely gave women one good medicine when you put Lydia E. Pinkham's Vegetable Compound on the market. After I had my baby I was all run down and so nervous it kept me from gaining. My doctor did everything he could to build me up, then he ordered me to take Lydia E. Pinkham's Vegetable Compound with his medicine and I am now a new woman. I have had three children and they are all Lydia E. Pinkham babies. I have recommended your medicine to several friends and they speak highly of it. You are certainly doing good work in this world."—Mrs. ANNE TOMSHECK, 10657 Wabash Ave., Chicago, Illinois.

There is nothing very strange about the doctor directing Mrs. Tomsheck to take Lydia E. Pinkham's Vegetable Compound. There are many physicians who do recommend it and highly appreciate its value. Women who are nervous, run down and suffering from women's ailments should give this well-known root and herb medicine a trial. Mrs. Tomsheck's experience should guide you toward health.

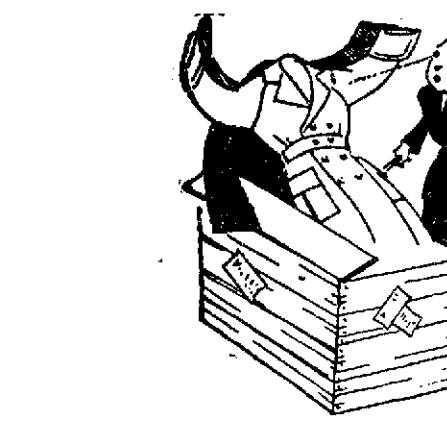

Hallowe'en Fixin's

The clever little things that we have for your celebration of Hallowe'en are yet here plenty and you'll find that your party will be a lot nicer if you have the proper decorations.

Narcissus Bulbs

We are showing and selling a lot of them, too. Every box of these healthy narcissus bulbs that you want to start now to have ready in time for Christmas. We have them all ready, bowl and all.

Kurtz Stationery Store

First Crack out of the Overcoat Box

The standard stereotype arguments for announcing Overcoats cannot be used today.

For if we were to say, "The New Coats are here and they are fine" it would be like saying, "New York is some city."

Men of this and surrounding towns:

We don't expect you to believe it but it's true every word;

In all the seasons since this city has had paved streets no combination of clothing stores has ever showed such a combination of clothing, and in telling you they are here and in inviting you to see them, this newspaper ought to pay us for the news rather than ask us to pay for the space.

ODDS AND ENDS AND THINGS

By J. D. C.

No monkey gland artist need apply here. Father of two sets of twins at eighty-two. Colonel R. H. Spencer of Norfolk, is writing his friends about his good fortune.

Colonel Spencer was married in January, 1915 to Mrs. Emily D. Bohanan.

Warren G. Harding is said to be the richest President to occupy the chair since George Washington.

Mr. Farnese, of Bush street, San Francisco, invites your attention to the future ruling power of the earth. Its name is "Teparia." Christianity and civilization reached their end in 1914, says Mr. Farnese and a new power is to arise, coming from Asia its name made up of the first letters in each of the following: "Turkey, Egypt, Persia, Arabia, Russia, India, Afghanistan."

Mr. Farnese thinks that after "Teparia," begins to rule the world will return to sun worship.

The third annual airplane race of the Pulitzer Trophy at Detroit last week broke three world's records and left the United States supreme in the air. Lieut. Russell L. Maughan, the winner, maintained an average speed of 206 miles an hour over a 160-mile course. No man has ever before traveled so fast over that distance.

In addition, Lieut. L. J. Maitland, who came in second, broke the world's records for fifty kilometers a flying that distance at 216.1 miles an hour and for 100 kilometers by making it at the rate of 207.3 miles an hour. Both men bettered the world's record for 100 miles, and both, with five other pilots, exceeded the former mark for 200 kilometers. More interesting than these bare figures are the personal accounts of their experiences given by participants. Both Maughan and Maitland report having lost consciousness momentarily in rounding the pylons that marked the turns, surely a dangerous thing at such a time. "On the Gankler point turns on the fourth lap of my flight," said Maughan, "I was whirled into unconsciousness for three or four seconds. When I regained my senses I was almost skimming the waves of Lake St. Clair. Perhaps this risk would be eliminated on a straightaway—but perhaps also the development of speed in the airplane is beginning to outman the endurance of the human frame. It may be that men were not made to go so fast."

On the other hand, the contest was staged without an accident, which speaks well for another phase of airplane building.

Since that race Lt. Mangan traveled at a speed of 248 miles per hour. The United States is now practically epidemic proof. Dr. Hugh S. Cummins, head of the United States Public Health Service, declared that it would be extremely difficult for disease-carrying germs to get across the borders or the shores of the country.

All of the outposts of civilization are guarded; so are the ports of entry. It is all a part of the day's work for the scientists in this unique branch of government service.

No one took the Public Health Service seriously until the bubonic plague appeared in New Orleans and San Francisco. They sent special cars and special experts out there.

They discovered that the bubonic plague is a disease carried by fleas on the rats. In the first place they launched a wide spread campaign for the extermination of the rodents. The result of this has been the change of building regulations in the rat proofing of buildings.

The Public Health Service discovered first that most rats came from overseas ships in our harbors. The service decided at that time that it would be extremely advisable to restrict or prevent rats coming in and perfected regulations which are extremely effective today.

This is more or less history Dr. Cummins said that the country had stood on the eve of a germic invasion, which had been repelled. It is no longer a secret that the health of the nation in America was threatened with bubonic plague at one time.

the Court to take the testimony in the three state cases and leave the same to the Court, with 500 of dollars, will set for the hearing of his case, at 11 o'clock in his office in the Clearfield Trust Company Building at Clearfield, Pa., on Friday, the 2nd day of November, 1922, at ten o'clock A. M. when and where you may attend if you think proper.

Fall Ready-to-Wear Shows Countless New Style Movements

Countless new movements have been inaugurated in styles for women, and each has proved more acceptable than the last. There is still further departure from the old paths in respect to price, perhaps the most acceptable of all. Beautiful styles for every age—all at prices lower than those obtaining for garments of the same quality a year ago—are indeed the bearers of good tidings to the modern woman; and Leitzinger's take pleasure in furthering the new arrangement with a large and unusually comprehensive array of Frocks, Coats, Suits, Hats, Furs and other apparel for women.

First of All Is a Smart New
HAT

If you want to be in the proper frame of mind during this delightful Autumn Season. It is surprising what one pretty Hat can do to rejuvenate an entire wardrobe. There are lovely new Hats on display her of bewitching lines and ravishing color, and style so satisfying that few women will care to look further.

Priced from \$2.50 to \$18.00

:- SNUG KNIT UNDERWEAR :-

Combines Quality With Comfort and Attractiveness

The question of Knit Underwear in a heavier weight than summer has demanded, is all-important, now that brisk fall weather is here. These early fall days in the Underwear Section are splendid ones to examine and purchase the new knit undergarments. There are many interesting new details of trimming; some new weights. As you know, we carry only those well-known and thoroughly tested makes that stand for quality—the Munsingwear and Athena Brands, head the list of our nationally known makes of Women's and Children's Underwear.

Lion Brand Hardy-Hide Hunting Boots Will Protect Hunters' Feet

Every hunter should take the best of care of his feet and to do this you have got to have the best of footwear. Upon the care you give your feet depends the pleasure of your hunt. These boots are made of HARDY-HIDE leather which, for pliability and toughness, is second to none.

OFFICER'S STYLE HARDY-HIDE HUNTING BOOTS—

Made with 16-inch tops, with plain toe and welt sole \$9.00

ROUND TOED HARDY-HIDE 16-inch BOOTS—These are light tan, full-fitting toes, double stitched welt sole \$9.00

16-inch HARDY-HIDE SHOES—These are nailed soles. Brown only \$7.00

12-inch HARDY-HIDE SHOES—Welt sewed soles with 2 buckles at top \$8.00

12-inch HARDY-HIDE SHOES—Have nailed soles \$6.50

8-inch HARDY-HIDE SHOES—Welted soles with buckles at top \$6.00

OF COURSE WE HAVE THE GOLD SEAL RUBBERS TO FIT EVERY SHOE IN THE FAMILY FOR STREET WEAR. LOOK FOR THE "GOLD SEAL" STAMP.

MELLON ANNOUNCES STANDARD MELON IS NOT SUBJECT TO TAX

Washington, D. C., Oct. 19.—Secretary Mellon of the United States Treasury will rule that the stock dividend of the Standard Oil Company of New Jersey is not taxable. The Secretary takes the view that the 400 per cent stock dividend is merely a splitting up of the shares and does not add to their value, it was announced.

The accumulated profits have already been taxed under the excess profits rule and this stock dividend is merely a division and does not add to the value of the shares, it was announced.

A Hint to Spreaders.
"Yass," said the Maine Philosopher as the touring car flashed through the town at a 10 mile clip, "ez the Philosopher once said to his lady friend America, 'them ez likes coo cups on the ruts of life use a lot o' first-class bread toaster that might or et on this way."

Guess Who

What's this man out gentleman in next best case suit heading for his office? It's the famous Philosopher and Wren's Marshall Philosopher. Philosopher, chief of the United States in the World War and the world's greatest military authority.

Riches From Inventions.

Sir Henry Densmore, who invented the steel-making process, was a poor boy who went to London from a poor town to seek his fortune. Cyrus McCormick, who created the reaper and self-binding harvester, died worth \$20,000,000. W. L. Brant, a watch maker, he invented the time clock which keeps tab on employees in factories and places of business, and it made him rich.

Found Wanting.

A New York visitor called us a "hick" because we have never seen a game of golf, but at the same time he confessed that he never saw a watermelon on the vine and couldn't tell when one was ripe. He was being naïvely dismissed from our baroque presence.—Houston Post.

Pests Always With Us.

"When a man crowd a room, get out of a hall, signs a letter, Branch editor, and you ever see how the ones in the doorway and visit!"—Kansas City Star.

TRY SULPHUR ON AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night.

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declared a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowley's Mentho-Sulphur from any good druggist and use it like cold cream.

Any breaking out of skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right on, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowley's Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.

Advice to Office-Holders.

So live, O office servants, that you never are obliged to announce in a voice choked with emotion that you want the public investigation. One state's motto!

Not Hard to Pay That Rent.

A small farm in Scotland, in a generation ago, was held by its owner on the simple tenure of presenting to the sovereign of Scotland, when in the neighborhood, one white rose.

The Greatest Opportunity.

A little child is always a sacred charge, and there is no greater opportunity than to direct a young mind through wholesome growth to a realization of the abundance of life.

In Better Law

Should the caves of a man's house project over his neighbor's land, the latter may pull them down at once, according to British law, unless they have so projected for 20 years.

Society.

Society is like a burning house; a lot of people want to rush into it whether or not there is anybody they know inside.

In his abortive attempts to make what he calls "Finneganism" an issue in the present state campaign, John A. McSparran, Democratic candidate for Governor, tells the voters he intends, if elected, to make a ruthless reduction in taxes, particularly school taxes. In his business promises he essays the ridiculous proposition of subtracting from the costs of keeping up a modern school system and adding in efficiency and comprehensive scope to the work of the schools.

But the voters, wrestling with McSparran's unique mathematical problem, are left in the same dilemma as the musical comedy songbird of Victor Herbert's "Babes in Toyland," who sang, "I Can't Do This Sum." As the Connellsville Courier points out, McSparran is saying that in the event of his election he will make such changes in the public school program of the state that the days of "the little red schoolhouse," with its low cost of maintenance and restricted opportunities for imparting instruction to the boys and girls of the state, will be restored and taxes reduced accordingly.

In this, however, McSparran disregards entirely the facts contributing to an increased cost of public instruction, adds the Courier. These causes were authoritatively determined in a study of the subject conducted by the National Educational association, which found these increased costs due to three things:

1.—To increased attendance. Since 1890 the attendance in our public school has increased 139 per cent.

2.—To decrease in the purchasing power of the dollar. Since 1890, the purchasing power of the dollar declined so that in 1920, \$290 were required to buy what \$100 purchased in 1890.

3.—To the increased efficiency of our schools. This increase in efficiency is due to providing the newer kinds of education demanded by the public, such as vocational instruction, health education and nutrition, instruction for the defective, the delinquent, the sub-normal and the specially gifted.

These causes cannot be eliminated by the election of McSparran no more than he, with a Republican Legislature in opposition to his policies, can nullify the School Code, reduce teachers' salaries or curtail the appropriations to the support of our educational program.

Having been a persistent opponent of woman suffrage it is not surprising that McSparran is equally unprogressive in regard to our public educational program, but he is not fooling thoughtful or well informed people by his preposterous claims that he can or will reduce school taxes by a magic wave of his hand or other means. His talk about "centralization," etc., is, as the Philadelphia Ledger so pointedly observed, "only a smoke screen to conceal the real motive of the attack on the state school system, and that real motive is opposition to increased appropriations toward the support of public education made by the last Legislature."

In short, McSparran is opposed to the women of the state having the right to vote and their children having the educational advantages it is the duty of the great and wealthy state of Pennsylvania to provide for its humblest citizen.

THAT GREENSBURG GAME DISCUSSED FROM THE GREENSBURG STANDPOINT

The Greensburg Morning Review of Monday last carried the following story of the Greensburg-Clearfield High football game on Saturday of last week:

Clearfield High School football team's defense was the weakest presented by any team here this season and the Greensburg High eleven gained an easy 68 to 0 victory at Athletic Park Saturday afternoon. The playing of the Clearfield team was a disheartening disappointment to the more than 3,000 fans who saw the game. Coming here with an 80-0 victory over Clarion Normal the visitors were expected to launch an action-packed attack that would keep the locals on their toes every minute during the game. Their defense was also reported to be equal if not better than that of the Brown and Whites.

The visitors had a swift attack and one which might have caused a little trouble had they used it often, out of bounds, however, on the five

They chose to play a purely defensive game, however, kicking the ball on the first down. Several times they opened up and during the game gained six first downs, more than has been registered by any team against the Brown and Whites this season. In the fourth quarter a forward pass, Brown to H. A. Johnson, netted 28 yards. Instead of following up their gain however, Clearfield punted.

Although the local's won by such a large margin there were enough thrills to keep the crowd interested at all times. Spectacular and long end runs by Guarino and Hull and one were expected to launch an action-packed attack that would keep the locals on their toes every minute during the game. Their defense was also reported to be equal if not better than that of the Brown and Whites.

The visitors had a swift attack and one which might have caused a little trouble had they used it often, out of bounds, however, on the five

yard line.

When it was seen that Greensburg would win by a large score, fans were anxious to see them run it up to 80. "Make it 80!" shouted the crowd but in the final quarter with all but two regulars out of the lineup the scrubs were unable to push the ball over enough times to count 80.

The crowd was not as large as had been expected. This was due in part to the fact that 75 cents general admission was charged. Fans paid 75 cents for the Erie game and when they were again taxed that amount Saturday there was criticism heard on all sides. Students, who have heretofore been sold tickets for 25 cents, were charged 35 for Saturday's game. Many fans who paid 75 cents to see the game did so protesting that it was too much. Although the guarantees in some cases are high, fans contend that 50 cents for general admission and 75 cents for reserved seats is enough to charge except for games similar to that with Harrisburg Tech.

Hull scored the first touchdown a few minutes after the first quarter began. After an exchange of punts it was Greensburg's ball on its 45-yard line. Line plunges and a forward pass to Hull, which netted 12 yards, carried the pigskin to within the five-yard line from where the fullback carried it across.

The locals scored again in the same quarter. Hull made 32 yards on two end runs and Guarino added 18 by an end run. Two line plunges placed the ball on the 5-yard line. Greensburg was penalized 15 yards, making it 20 yards to the goal line. A forward, Guarino to DeMoise over the goal scored the touchdown. DeMoise scored again when he caught a 20-yard pass and ran five yards over the goal line. DeMoise scored eight extra points during the game, making

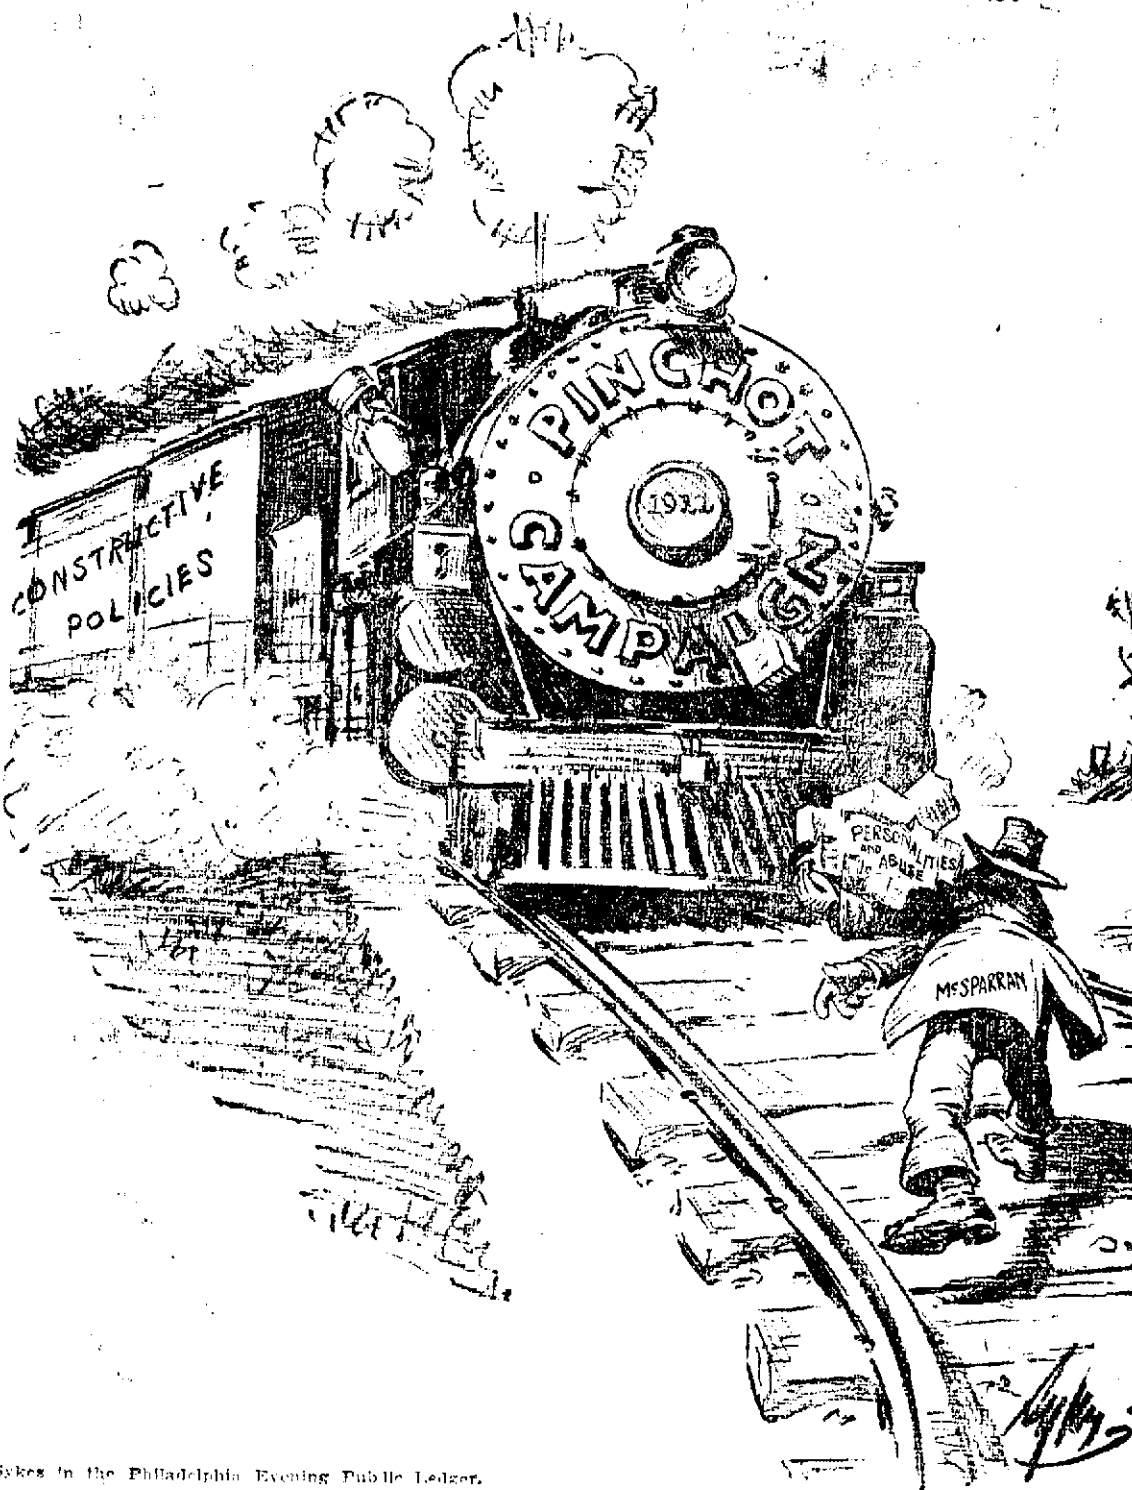

that number of goals from placement following the 10 touchdowns.

Greensburg scored two touchdowns each in the first, second and fourth quarters and four in the third. Hull and DeMoise scored the touchdowns in the first quarter; Guarino made both in the second while Hull made 2 and DeMoise and Guarino one each in the third. In the final quarter Charlesworth and Hull carried the ball over the goal line.

The Brown and White backs made good interference during the entire game, making possible the long runs of Guarino and Hull. When Guarino was carrying the ball, Hull, Charlesworth, Forkey and Goulding did good work while Charlesworth, Forkey, Goulding and Guarino performed the same service for Hull.

The line did good work on the offensive and made big holes for the backs to plough through. They were not tested to any great extent on the defensive at any time during the game.

"SAFETY WEEK" IS WASTED ON SOME FOLKS!

Saves in the Philadelphia Evening Public Ledger.

HELVETIA MINER KILLS HIMSELF BY PISTOL SHOTS

Andrew Fender, a miner residing at House No. 8, Helvetia, this county, committed suicide by shooting himself four times with a revolver at about 7:30 o'clock Tuesday night.

According to the facts developed by Coroner J. I. Pollum, who made an investigation shortly after the suicide, the Fender family had partaken of the evening meal without intimation of the impending tragedy. Shortly afterward the father went upstairs and was heard walking from room to room as though pacing the floor. The mother and several children sat in a kitchen and Andrew, Jr., was about to retire, being half way up the stairs when he heard a shot from the room above, and ran down to his mother. Three more shots followed in quick succession and the mother and other children had run from the house when Andrew, Jr., reached the kitchen.

Mike Poida, another youth, was passing the house at the time and ran in. With a searchlight, he and Andrew, Jr., went upstairs and found the father dead. He had shot himself three times in the head and once in the chest.

Parents of Crimes.

If poverty is the mother of crimes, want of sense is the father.—La Bruyere.

Possible Explanations.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night. Your cold or catarrh will be gone. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neutralize irritating acids.

Kidney and bladder irritations often result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread; the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast; continue this for two or three days. This will help neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs, which then act normal again. Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia; and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia water drink, which often quickly relieves bladder irritation.

TRIED OYSTERS YET?

You know, now that we are getting cooler weather that oysters are coming through in fine shape. And if you'd once try the fat, luscious ones that we are getting here, you'll come back for more.

We are getting them fresh every day and have all sizes for your palate.

Lengthening the Life of Your Boy's Shoes

PARENTS—here's a little secret on making your children's shoes last longer! Every two weeks or so put a few drops of oil on seams and stitches. It toughens the thread, preserves the leather and makes "new-shoe day" a much less frequent occasion.

E-J's natural long wearing qualities will be surprisingly increased this way—and they will be even more comfortable.

Remember—E-J's are

Better Shoes for Less Money

ENDICOTT & JOHNSON SHOES

RULES FOR CIDER MAKING OUTLINED TO PROTECT FARMER

During the past several weeks the Pennsylvania Department of Agriculture has been deluged with requests for information concerning the latest rulings on the manufacture of cider. Farmers in the apple belts of the State were anxious to convert their excess apples into cider but were fearful of running afoul of the prohibition laws.

J. T. Davis, Federal prohibition director for Pennsylvania, has furnished Secretary of Agriculture Fred Rasmussen copies of the latest rulings governing the manufacturing of cider for home use and also for commercial purposes. These rules follow, in part:

No permit or bond is required for manufacture of non-intoxicating cider for use in the home.

Apples may be taken to the public cider mill and the cider made from such apples may be taken from the mill to the home before it contains alcohol to the extent of 1-2 of 1 per cent by volume. Such non-intoxicating cider must be used exclusively in the home.

The phrase "non-intoxicating" as used in connection with cider used in the home is held to mean non-intoxicating in fact, and not necessarily less than 1-2 of 1 per cent. of alcohol.

The cider in the home may be allowed to turn to vinegar if the owner desires, provided he adds no sugar or other fermentable substance to the cider or fruit juices to increase the alcoholic content thereof, inasmuch as such practice is held to constitute a mash fit for distillation within the provision of Section 3282 Revised Statutes; he may sell said vinegar to any one who may desire to purchase it. Cider made and used in the home is not subject to tax under the Internal Revenue Law.

Cider may be sold in bulk containers for use in the manufacture of vinegar or apple butter so long as it contains less than 1-2 of 1 per cent. of alcohol by volume.

Purchasers of such cider in bulk must furnish the seller a written order showing the kind and quantity to be furnished and stating that the alcoholic content is to be less than 1-2 of 1 per cent. by volume. The name and address of the purchaser and the order must be stated in such written order. These orders must be permanently filed by the seller and must be open to inspection by the Internal Revenue and Prohibition officials.

A label showing all the facts above stated must be attached to each container.

Beecham's Pills
Keep you fit

REDUCING WASH "DAY" TO "HOUR"

Here's a simple, economical way to reckon your family washing by a couple of hours instead of days—

Let us call for your whole bundle. We'll gently wash everything in pure, rainsoft water, thoroughly rinse everything, dry everything.

Then we'll starch the pieces that need it, fluff the woolens and bath towels ready for use, and iron the flat work beautifully smooth.

All the heavier work is finished. There only remain a few personal things for you to do at your leisure.

We call this our Rough Dry Service. Its reasonableness will please you.

Phone us today, and we'll have our representative further explain this service.

taiger.

Sweet cider intended for use as a beverage should be sterilized or preserved and be put up in sterilized glass bottles or other similar closed containers to insure the alcoholic content remaining less than 1-2 of 1 per cent. by volume until consumption.

Manufacturers who sell sweet cider in bulk containers such as barrels, for use as soft drink are held responsible for preserving and marketing it in such manner as will insure the alcoholic content remaining less than 1-2 of 1 per cent. by volume until consumed.

If such cider is found upon the market containing 1/2 of 1 per cent. or more alcohol by volume, the burden of proof is upon the manufacturer to show that the cider contained less than 1-2 of 1 per cent. of alcohol by volume at the time it was manufactured or sold by him, or withdrawn from the place of manufacture.

Fruit Juices For Home Use.
Any person may, without permit, and without giving bond, manufacture non-intoxicating fruit juices, and in so doing he may take his fruits to a custom mill and have them made into fruit juices. After such non-intoxicating fruit juices are made, they must be used exclusively in the home and when so used, the phrase "non-intoxicating" means non-intoxicating in fact, and not necessarily less than one-half of one per cent. of alcohol.

All persons producing fruit juices (other than cider) containing 1-2 of 1 per cent. or more of alcohol by volume are required to register with the Collector of Internal Revenue.

The head of a family who has properly registered may make 200 gallons of fruit juices exclusively for his own family use in his home without payment of tax thereon. If he makes more than 200 gallons he must give bond, and pay tax on the excess. If such excess quantity is intoxicating, double the ordinary tax is due.

his own family use in his home without payment of tax thereon. If he makes more than 200 gallons he must give bond, and pay tax on the excess. If such excess quantity is intoxicating, double the ordinary tax is due.

Dried fruits such as raisins may not legally be used in the manufacture of such non-intoxicating fruit juices.

Superstitious Chinese.
The Chinese are probably the most superstitious race on earth. They have a strong belief in all sorts of spells and charms. The average Chinaman also has great faith in dreams, and frequently spends a large part of his income on medicine.

Women in Municipal Council.
The municipal council of Amsterdam includes five women.

Caring for House Plants.
House plants should be set out in the rain whenever convenient. For spraying use one teaspoonful of nicotine (black leaf 40) to one gallon of water, and one-fourth pound of whale or fish oil soap. Spray every ten days until insects disappear.

Peculiar Rent Clause.
A plot of ground in London was once let to the British admiralty on condition that a ship was to be always on the stocks. Failing to do this, the land would revert to its former owner and in the deed a clause was inserted to this effect:

No Menotomy About That.
A woman sued her husband for divorce because he has forced her to move 62 times in 12 years. And some women complain that married life is monotonous.

Knowledge Comes With Years.
The years deepen the value of our past to us, and of our friends who are a part of that past.—George Eliot

Studebaker

Comparison Will
Emphasize Its Value

The Studebaker Big-Six Sedan delivers everything you can ask of a motor car.

If you pay more than the Big-Six price, you may buy more weight, but it is impossible to get finer materials or better craftsmanship than are used by Studebaker.

Compare this Big-Six Sedan with the most expensive cars. Check the body with any body built, compare the chassis construction, look into the endurance records of the Big-Six as compared with any other car.

Get behind the wheel yourself. Test its performance, its comfort. Check its appearance with any car at any price. And don't overlook this point: Studebaker has more than 3,000 branches and dealers throughout the country who are always ready to render efficient service.

And finally, compare the equipment and appointments.

Consider the Big-Six Sedan as an investment. There is no reason to pay more. The name Studebaker stands for satisfaction.

EQUIPMENT

Nickel-plated radiator shell, motor and ornaments radiator cap.
Automatic windshield wiper.
Rear-view mirror.
Exhaust heater.
Handsome nickel-plated bumpers, front and rear.
Spacious trunk with cover.
Two extra wheels (complete with tires and tubes) carried on front fenders.
Ventilator in cowl.
Theft-proof transmission lock.
Upholstery of rich mohair velvet plush with top lining and floor carpets to match.
Artistic coach lamps.
Opalescent corner reading lights.
Dome light and courtesy light.
Three-piece rain-vision windshield with rain wiper.
Jeweled eight-day clock.
Arm rest on each side of rear seat.
Large door pockets.

NUMBER 245

LLOYD GEORGE QUILTS POST AS BRITISH PREMIER

DOUGHTY WELSHMAN IS TURNED DOWN BY SUPPORTERS, QUILTS

Lloyd George Makes It
Known He Wishes Bonar
Law To Form Ministry To
Succeed Him.

FLOPPED 186 TO 87

London, Oct. 19.—Lloyd George resigned as prime minister of England and the British Empire this afternoon.

He presented his resignation to King George at Buckingham Palace after the Unionist party met at the Carlton Club had repudiated his ministry.

This marks the end of the Coalition government composed of the Liberals and Unionists which was brought about during the great world war.

It is understood that Lloyd George invited Bonar Law to form a new ministry. It is also understood that it is the intention of His Majesty, King George, to summon Law and name him as prime minister in keeping with British political traditions which always allows the outgoing premier to name his successor.

Bonar Law was the active head of the Unionist party all during the war and up until about a year ago when his health broke down. When the leadership passed to Austin Chamberlain who became party leader and Keeper of the Privy Seal although he was never recognized as the real head of the party.

London, Oct. 19.—The Central News Agency announces that Lloyd George and his Coalition government has resigned. Lloyd George went to Buckingham Palace this afternoon, presumably to hand his resignation to King George.

The King went to the Palace from 10 Downing street this morning after having a conference with his ministers.

The conference was called as the result of the vote taken yesterday at the Carlton Club where the Conservatives voted against the Unionists and their coalition government 186 to 87.

It was recommended by Lloyd George that Bonar Law form a new ministry. Bonar was summoned before His Majesty this afternoon presumably for a conference.

London, Oct. 19.—The Unionist caucus held in the Carlton Club today voted 186 to 87 in favor of continuing the Unionist Conservative party. It is the intention of this party to insist upon the election of a conservative premier if successful.

This amounts to a repudiation of the Coalition party of Lloyd-George unless the Premier will announce himself as a conservative candidate even though the head of the Coalition government is now considered as a Liberal.

The Unionist caucus vote indicates that Lloyd-George will be asked to resign if the Unionist caucus and Lloyd-George will not support Chamberlain.

MARRIED AT CLEARFIELD

Stephen Adam of Coalport and Hazel Kilian of Irvona were united in marriage by Rev. B. J. Hummel at Clearfield, Tuesday Oct. 17, 1922.

Max Faust left Saturday morning to visit friends in Williamsport.

Mrs. Paul Ailer and son Paul Brown Ailer, of Harrisburg, are guests at the home of Alexander Livingston on South Fourth street at present.

COAL OPERATORS OF THIS DISTRICT WHO WILL MEET MINERS

Clark and O'Neill Are
Named to Meet Miners
At Chicago Nov. 14;
Name Fact Presenters.

EIGHT WILL SERVE

At a joint meeting of the Central Coal Association, the Bituminous Coal Operators of Central Pennsylvania and several individual operators not members of either association, held Tuesday afternoon in the rooms of the Central Coal Association in the Lincoln Trust building, Altoona, B. M. Clark, of Indiana, Pa., president of the Bituminous Coal Operators of Central Pennsylvania, and Charles O'Neill, of Altoona, secretary of the Central Coal Association, were chosen as the two operators from the Altoona bituminous district to form with two miners to be chosen the committee from this section of the field which will appear at the joint conference of miners and operators of the United States to be held in the Great Northern hotel, Chicago, on November 14.

The Chicago meeting has been called for the purpose of formulating a method to be followed by the bituminous coal industry in the negotiation of wage scale agreements to become effective April 1, 1923, and the methods so formulated shall be reported by the committee on reorganization to the joint conference to be held in Chicago, on January 3, 1923.

A special committee, consisting of Messrs G. Webb Shillingford, Rembrandt Peale, R. H. Sommerville, B. M. Clark, Charles O'Neill, S. T. Brown, C. B. Maxwell and J. R. Casey was appointed for purpose of adopting plans and a method of procedure for presentation of the Central Pennsylvania coal operators' case to the fact-finding commission recently appointed by President Harding, and the local committee will begin at once the work of gathering data and making it up into brief form for consideration by the president's commission.

At this meeting action was also taken by the operators to bring about an equitable adjustment in distribution of coal cars in the central district of the Pennsylvania system. The operators claim that mines in the district between Altoona and Pittsburgh are not receiving a fair share of cars and the railroad authorities will be asked by the mine owners to have this matter adjusted immediately.

Lieutenant Frank B. Conger, Jr., field representative of Federal Fuel Director Ivens, with offices in the post office building at Altoona addressed the operators at the meeting asking their co-operation in furnishing the fuel director with the data required under the recent act of Congress creating his office.

N. I. PROSECUTOR OFF ON A SECRET MISSION ALL DAY

New Brunswick, N. J., Oct. 19.—Prosecutor Beekman dropped from sight during the night and it is reported that he is secretly following a clue in connection with the murder of the Rev. Edwin Hall and Mrs. E. L. Mills.

It was stated that the rector and his choir singer were murdered behind the little school house on the Red Bank Road about four miles from the abandoned Phillips farm.

If the person under suspicion proves a conclusive alibi, nothing more will be heard of this clue. A number of detectives and State police, who have been working on the case, dropped from sight at the same time as Prosecutor Beekman.

"FIGHTIN' JOE," OF PA., A CONTENDER FOR LEGION HONORS

New Orleans, Oct. 19.—The American Legion is finding it a hard matter to select a new leader to replace the present National Commander, Hanford McNider, from a list of a dozen candidates.

The election Friday was the principal topic of discussion as the convention was called to order this morning.

Supporters of William Deegan of New York were confident that their candidate was assured of election. This was repudiated by the other campaigners as Deegan's chief claim for election was his constant hammering of the Administration on the bonus defeat. It was claimed that he was not positively assured of more than 20 per cent of the 1,000 voters.

Colonel Joseph Thompson, of Pennsylvania, is a strong contender and is considered one of the strongest "favorite sons."

PHILIPSBURG MAN IS MURDERED AT KANE SUMMIT

Kane, Pa., Oct. 18.—As the result of a coroner's inquest conducted here today by Acting Coroner H. Clay Heffner of Bradford, a formal charge of murder has been placed against Chas. McCormick, a woodsman, who has been lodged in the local jail since Sunday following a drunken brawl in which he is alleged to have beaten Harry Reynolds about the head and body, causing injuries which resulted in his death in the Kane Summit hospital at 1:15 p. m. Tuesday.

After an autopsy made by Dr. O. E. Pogan, the coroner's jury found that Reynolds' death was caused by injuries inflicted by a piece of pipe in the hands of Charles McCormick. The jury further recommended that a warrant be issued against the person or persons who sold the whiskey to the woodsman.

A John Doe warrant was issued and local police are confident that the man who, it is claimed, furnished the "booze" will be arrested shortly. When the officers went to his home in the woods, about six miles from here, tonight, he could not be found but avenues of escape are being watched. A charge of manslaughter may be placed against him.

McCormick, who assisted in bringing Reynolds to the local hospital following the fight last Sunday and later gave himself up to the police, attended the inquest today but declined to testify. The only testimony before the jury was that of Charles Bonner and William Reddan, both in the "moonshine party" and eye witnesses.

DuBois Woman Drowns In Shallow Waters Of Sandy Creek In Sandy

Mrs. Samuel Stroble, a young Polish matron whose home was at 408 Sprung avenue, DuBois, was drowned in the waters of Sandy Creek some time during Tuesday night or early Wednesday morning. The body was found lying in water that was not over sixteen inches deep, face upward. The discovery was made by a railroad shop employee named Morgan, who saw the body in the creek and raised the alarm. Shortly afterwards the body was removed to await the action of the authorities.

Mrs. Stroble was the mother of two children, one of whom was born about one month ago.

GREAT ACTIVITY IN POLITICAL REALM LOCALLY THIS WEEK; MEETINGS CALLED

State and Local Candidates Will Appear Before Democrats Tomorrow Eve. at 8 O'clock.

INTEREST IS HIGH

Considerable interest is being manifested throughout this section by our Democratic brethren in the coming political rally to be held at the Court House in Clearfield on Friday evening at 8 o'clock.

It had been thought possible to have Vance C. McCormick, of Harrisburg, address the meeting and his name appears on the bills announcing the meeting but County Chairman Don Gingers was notified by wire today that Mr. McCormick finds it impossible to be present. However, Marshall Thompson, the candidate for Auditor General, of Pittsburgh, and Henry C. Niles, of York, candidate for Superior Court Judge, will be here and together with Congress candidate Hon. J. Frank Snyder, and W. I. Betts, candidate for State Senator from this district, will do the speech making.

C. H. S. SQUAD IS PUT THRU HARD GRILL FOR GAME SATURDAY

By DICK LEIPOLD

With the State College game just one day ahead, Coach Reed sent his charges through one of the longest signal drills of the year. Tuesday's and Wednesday's scrimmage sessions brought to light several minor injuries that the players had sustained in last Saturday's contest. Four varsity men are in poor shape, Capt. Withers being incapacitated with a batch of boils, Ganoce, the 175-pound guard is confined to his home with a slight influenza attack, while the two Johnson boys, both quarterbacks, have been having trouble with "charley horses."

Betts and Moore, sturdy linesmen, have been working out at center with the rest of the line unchanged. Without Hody and Hense Johnson, the Red and Black's backfield lineup is very light, "Midget" Mitchell, Keen Barney and Bob Wilson forming a trio that will not average over 135 pounds, while Brown tips the scales around 155.

Another "pop" meeting will be held at the high school auditorium Friday evening. Speeches will be made by former C. H. S. and college stars. Every student is expected to be present, while all townspeople interested in the local school should be present.

Lock Haven High and Huntingdon High played for the first time in two years Saturday, at Huntingdon. The Lock Haven machine is one of the strongest in the State and held Huntingdon down to one touchdown. It is reported that Lock Haven scored, but the officials would not allow it, so the downriver team left the field. However, it will go on record as a 7 to 0 victory for Huntingdon.

DuBois High School's football eleven traveled over to Indiana Saturday and played the Normal team, losing 38 to 0. Last season DuBois won from the Indiana eleven by a 3 to 0 score, but the Normal squad is much stronger this fall.

ATTENDING STATE CONVENTION

County Commissioners Jesse E. Dale, T. R. Weimer and M. L. Farrell are attending the State Poor Directors' Convention being held at Uniontown this week.

All Precinct Chairmen of Republican Party to Gather at Dimeling this Evening to Plan Fight.

WILL WHOOP 'ER UP

Now that the "frost is on the pumpkin" and the fodder's in the shock" the minds of our captains of politics turn electionward and "boiling" is the condition of the political pot.

In this connection it might be well to add that Republican County Chairman A. L. Edwards, of Osceola, has called all the precinct chairmen for the county to participate in a meeting and banquet to be held at the Hotel Dimeling at 6 o'clock this evening.

The district and county candidates will be present at the meeting for the purpose of meeting the men who will marshal the Republican forces in the different election precincts of the county during this campaign.

Plans will be discussed and outlined and many matters of interest discussed.

Elopers Brought Back; Parties To Eternal Triangle All In Jail

Sheriff Thomas J. Lowell arrived home on the 4:30 B. R. & P. train last evening from Rochester, New York, bringing with him Vincenzo LaRossa and Viola Vallmont Luffuletti, the young couple who left Clearfield on Monday night of last week and were arrested by Rochester detectives upon their arrival in that city a couple of days later.

The couple told the Sheriff they ran away for the purpose of getting married. LaRossa said he knew the girl when he saw her but did not get acquainted with her until after the arrest of her husband. That he proposed an elopement to her and she accepted and away they went. They left Clearfield at 4 o'clock and stayed with an Italian family in Currensville Monday night. The following morning they set out on foot for DuBois and after getting several "lifts" from autoists en route managed to reach the city and took the night flyer for Rochester.

When they arrived in Rochester the two detectives who picked them up were on duty at the depot looking over incoming travelers. They had not been notified to be on the lookout for the elopers but the appearance of the couple attracted the attention of the detectives and they halted them and after grilling them decided to detain them and notify the Clearfield chief of police.

The girl told the Sheriff that conditions were such that she simply would not live at home, and while she thought more of her husband than she did of LaRossa, the husband was in jail and she decided to go along with LaRossa and would have married him.

The three parties to the unfortunate triangle are now inmates of the Clearfield jail.

PURCHASED VALUABLE BUSINESS PROPERTY

The Clearfield Wholesale Paper and Notion Company has purchased the office building of the Clearfield Machine Shops located on North Fourth street, between Pine and Reed streets. They took possession of the property yesterday. The consideration was \$10,000.

Will Address Rotary Club
Borough Solicitor John M. Urey will be the speaker at tonight's meeting of the Clearfield Rotary Club, which will be held at the Hotel Jordan at 6 o'clock.

OLD CONCERN, CLEARFIELD'S PIONEER INDUSTRIAL PLANT, MOVES TO MODERN QUARTERS IN UPPER END OF THE CITY

Clearfield Machine Shops Are Now Housed In
Two Gigantic Brick and Steel Buildings Equipped With All Improved Machinery Necessary

HAVE LARGE YARD AND STORAGE SPACE

One of the first local concerns to become imbued with that spirit of progress and advancement which has marked Clearfield's industrial and commercial life and which has resulted in such a rapid advance and substantial development and enlargement along both these lines the past few years was the Clearfield Machine Shops, Clearfield's oldest industrial plant. When the rapidly increasing business of this concern, which specializes in brick-making machinery and whose product takes front rank the world over, where bricks are being made, simply demanded larger quarters, Mr. Frank B. Reed, the moving spirit in the concern for many years, picked out a location on his property near North Clearfield station and just below Spruce street, and quietly began the erection of a device or appliance. The machine foundry and machine shops at that shops proper occupy the eastern portion in which to house the rapidly developing plant and business. A side-smith shop and stock room at the opposite end. The stock or supply room is most conveniently arranged, the system being designed to facilitate the rapid handling of supplies and finished work.

The new plant is made up of two large two-story brick, steel and concrete buildings. The main or larger building, which is 80x200 feet in size, contains the machine shops. It is a most conveniently arranged, commodious place, with all the up-to-date advantages and accessories to such a plant, which includes electric cranes, railroad siding into the plant, elevator and every possible labor-saving and quietly began the erection of a device or appliance. The machine foundry and machine shops at that shops proper occupy the eastern portion in which to house the rapidly developing plant and business. A side-smith shop and stock room at the opposite end. The stock or supply room is most conveniently arranged, the system being designed to facilitate the rapid handling of supplies and finished work.

An addition to the west end of this building, which will contain the offices of the concern, will be erected in the early spring, provision already having been made for same, while for the present the offices will be located on the second floor over the blacksmith shop.

The foundry building which parallels the machine shops, with conveniently located connecting corridors, is 62x190, and in addition to the finely equipped foundry on first floor, has second floor utilized for pattern storage room and other departments.

The plant is complete in every particular and represents an investment of several hundred thousand dollars. It is most advantageously located and will mean much toward the development of that section of the town.

Mr. Reed is already providing for that development by establishing a system of drainage in the commons on the opposite side of South Fourth street from the plant, and the future

(Continued On Page Two.)

Wonderful Singers To Visit Philipsburg For Concert This Evening

The Philipsburg Community Service League has accomplished a wonderful lot of good in that community and have plans for even greater constructive work the coming summer. Funds are needed for the working out of those plans and with this end in view the Executive Committee has arranged to bring to Philipsburg tonight "The Chanters," a galaxy of fifty male voices, developed by the Altoona Mystic Shrine. These "chanters" are vocalists of real ability, who sing the old-fashioned songs that mother used to sing, in a manner which has earned for them the very warmest praise wherever they have been heard.

In addition to "The Chanters" and their varied and versatile repertoire, the program also will include a mixed quartette of two male and two female voices, and a soprano soloist of note.

"The Chanters" will appear at the Rowland Theatre this evening. Admission will be 50 cents, \$1.00 and \$1.50. A number of Clearfield people will attend.

CHAS. T. KURTZ,
Chairman.

Let all who can, attend.

Tom Sims SAYS--

Chicago has a grand larceny case and this is not a misprint.

Villa will open a bank, but not the way handits usually do.

Our Pacific ocean is so dry now a big ship burned.

Better business is back but sse certainly has fallen off.

A wise woman fools her husband into thinking he fools her.

Oldies are better and figures have started lying again.

Monter says the German debt worries France. Germany should worry.

This winter who flow 242 miles an hour should start earlier.

The call of the wild draws city people to the country, and country people to the city.

Think about short business. There's a great deal in it.

Side Train

A long train that falls from one end and ends at the other end.

BETTER TOOTH PASTE

MAG-LAC
Stronger in medicinal properties it is greater in prophylactic benefits. Free from grit and still worth a good scrubbing every day. Flavored so that it tastes well.

Irwin's Drug Store
Opposite Y. M. C. A.

PHILIPSBURG MAN

(Continued From Page One)

nesses to the assault in which it is alleged they also participated. Both are being held as material witnesses. The fight was staged near the Kincaid school in the room in which the men were engaged Sunday afternoon. All the men, including Reynolds, were taken to the hospital and McCorrack and Reynolds were rushed for surgery.

The fight between Reynolds and McCorrack was a very rough one. Reynolds was picked up by a group of men from a nearby police station and taken to the hospital. A fractured skull and two broken ribs were disclosed by an examination. Reynolds had been rushed to the hospital.

OLD CONCERN

(Continued From Page One)

growth of Clearfield will thus find opportunity for extension in that direction. The Clearfield Foundry and Machine Shops did much for Clearfield. They have been in a business way for many years. The Clearfield Machine Shops, with its one hundred skilled workmen on its payrolls and a specialized output that is recognized as the "last word" of perfection in the way of brick making machinery, with more than a nation-wide reputation, will, of course, be of even greater benefit and importance in the future. May unbounded success be the portion of the old concern in its new quarters.

The bottom rungs of the social ladder are all kicked out.

Two faced people are kept so busy looking in both directions they seldom see where they are going.

Flyer at 85

More than 85 years of flying. The man in the picture is a flyer at 85.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

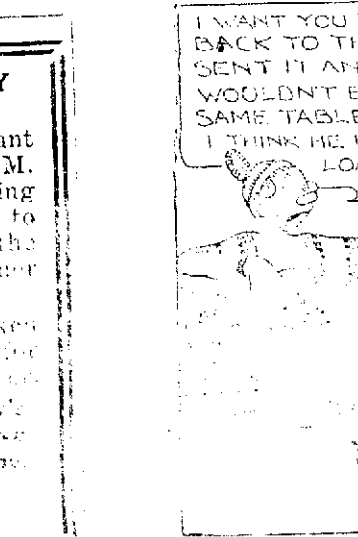

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 30c.

BRINGING UP FATHER

EXCIOUS' RETURN TO THIS STATE IS REPORTED

Pittsburgh, Pa., Oct. 19.—John Excius has been ordered to take full charge of the office of prohibition enforcement in this city tomorrow morning, according to word which has been received here from Philadelphia. Excius, whose transfer to the office after it was known that A. L. Melsham, divisional chief of Ohio, Indiana and Michigan would be unable to come to Pennsylvania owing to the serious illness of his wife.

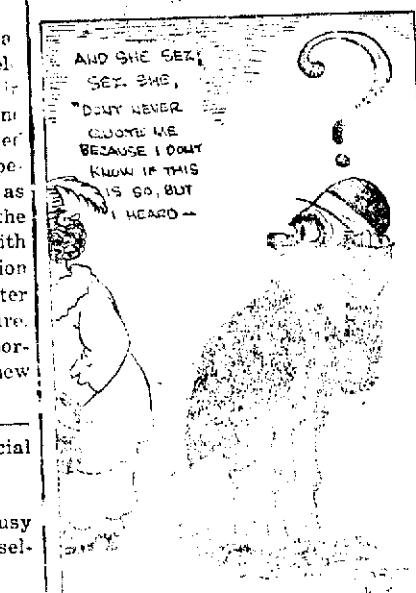

Use Pleasure Wisely.

Pleasure is the friend and foe of man. Rightly used, it makes for self-development and progress. Abused, it makes wrecks of humanity, puppets, and weaklings. Thrice happy is he who can use it, enjoy it, and make it his ally to the utmost.—Gibb

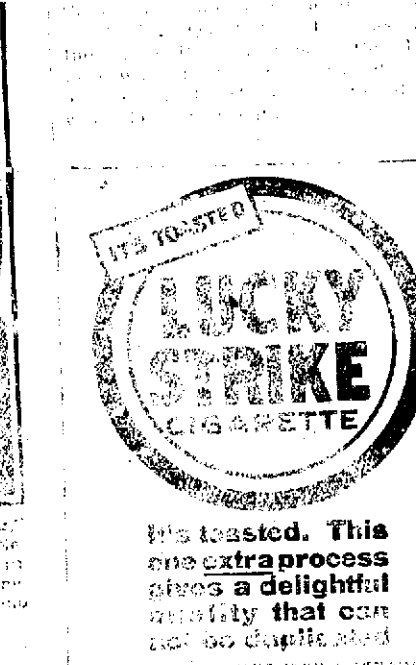

In Case of Fire.

Do not pull down the draperies that are on fire and thus spread the flames. Remove all objects nearby and with a wet broom smother the burning pieces as they fall.

TOWN PESTS

LUCKY STRIKE CIGARETTE

It's toasted. This one extra process gives a delightful quality that can't be duplicated.

PETITION COURT TO DISSOLVE THE DAUGHERTY RULE

Chicago, Oct. 18.—Motion for the dissolution of the Daugherty Injunction restraining the leaders of the Shopper's Unions was laid before Judge Wilkerson in Federal Court here today.

Donald Richberg, attorney for the Unions, petitioned the Court on grounds:

1. A large portion of the railroads who asked for the injunction have settled their differences with the men.
2. Conditions as set forth in the petition for the injunction, if they ever did really exist, do not exist at the present time, and that there is no further reason for the restraining order.

Ancient Dentistry.

Dentistry seems to have been practiced on this side of the ocean almost as early as in Europe or Asia. It is quite likely, indeed, that the art of filling teeth was first discovered here. At any rate, pre-Columbian skulls from both Ecuador and Mexico are evidence having teeth richly set with gold and in some instances precious stones.

Banana Juice for Snake Bite.

In snake-infested countries bananas are being exploited for snakebite. The efficiency of this simple remedy with the venom of cobra, rattlesnake and other serpents, trying and a banana juice upon animals bitten by the snakes. In no case could no discover that the alleged "cure" had any beneficial effect.

Say it with a Progress Want Ad.

We Are Going To Have An Important Announcement To Make Sometime These Days. It Will Be Something That Will Revolutionize The Meals Of Every Home In This City And You're Going To Like It.

Clearfield Dairy Co.

"Look here, Charlie," said one young underdog to another, who had been asked to run his eye over a letter which his friend had written to his father, in which there was the inevitable request for money, "you spelled jug, g-u-g!" "I know," said Charlie; "but you see I need the cash and don't want the old man to think I'm putting on airs. That's how it spells it."

DOCTOR ORDERED WOMAN OBEYED

Took Lydia E. Pinkham's Vegetable Compound and is Now Well

Chicago, Illinois.—"You surely gave women one good medicine when you put Lydia E. Pinkham's Vegetable Compound on the market. After I had my baby I was all run down and so nervous it kept me from gaining. My doctor did everything he could to build me up, then he ordered me to take Lydia E. Pinkham's Vegetable Compound with his medicine and I am now a new woman. I have had three children and they are all Lydia E. Pinkham babies. I have recommended your medicine to several friends and they speak highly of it. You are certainly doing good work in this world."

There is nothing very strange about the doctor directing Mrs. Tomscheck to take Lydia E. Pinkham's Vegetable Compound. There are many physicians who do recommend it and highly appreciate its value. Women who are nervous, run down and suffering from women's ailments should give this well-known root and herb medicine a trial. Mrs. Tomscheck's experience should guide you toward health.

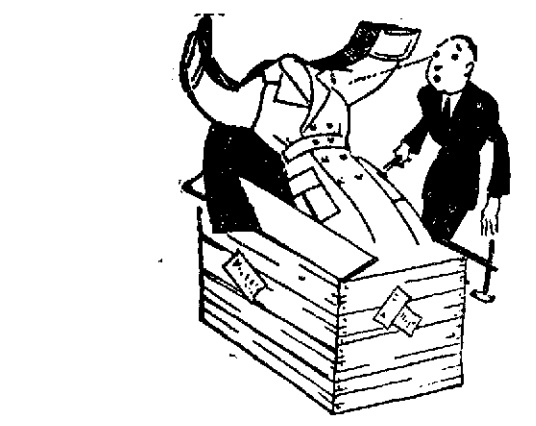

Hallowe'en Fixin's

The clever little things that we have for your celebration of Hallowe'en are yet here plenty and you'll find that your party will be a lot nicer if you have the proper decorations.

Narcissus Bulbs

We are showing and selling a lot of them, too. Every box of these healthy narcissus bulbs that you want to start now to have ready in time for Christmas. We have them all ready, bowl and all.

Kurtz Stationery Store

First Crack out of the Overcoat Box

The standard stereotype arguments for announcing Overcoats cannot be used today.

For if we were to say, "The New Coats are here and they are fine" it would be like saying, "New York is some city."

Men of this and surrounding towns:

We don't expect you to believe it but it's true every word;

In all the seasons since this city has had paved streets no combination of clothing stores has ever showed such a combination of clothing, and in telling you they are here and in inviting you to see them, this newspaper ought to pay us for the news rather than ask us to pay for the space.

ODDS AND ENDS AND THINGS

By J. D. C.

No monkey gland artist need apply here. Father of two sets of twins at eighty-two, Colonel R. H. Spencer of Norfolk, is writing his friends about his good fortune.

Colonel Spencer was married in January, 1915 to Mrs. Emily D. Bohanan.

Warren G. Harding is said to be the richest President to occupy the chair since George Washington.

Mr. Farnese, of Bush street, San Francisco, invites your attention to the future ruling power of the earth. Its name is "Teparia." Christianity and civilization reached their end in 1914, says Mr. Farnese and a new power is to arise, coming from Asia its name made up of the first letters in each of the following: "Turkey, Egypt, Persia, Arabia, Russia, India, Afghanistan."

Mr. Farnese thinks that after "Teparia," begins to rule the world will return to sun worship.

The third annual airplane race of the Pulitzer Trophy at Detroit last week broke three world's records and left the United States supreme in the air. Lieut. Russell L. Maughan, the winner, maintained an average speed of 206 miles an hour over a 160-mile course. No man has ever before traveled so fast over that distance.

In addition, Lieut. L. J. Maitland, who came in second, broke the world's records for fifty kilometers a flying that distance at 216.1 miles an hour and for 100 kilometers by making it at the rate of 207.3 miles an hour. Both men bettered the world's record for 100 miles, and both, with five other pilots, exceeded the former mark for 200 kilometers. More interesting than these bare figures are the personal accounts of their experiences given by participants. Both Maughan and Maitland report having lost consciousness momentarily in rounding the pylons that marked the turns, surely a dangerous thing at such a time. "On the bank point turns on the fourth lap of my flight," said Maughan, "I was whirled into unconsciousness for three or four seconds. When I regained my senses I was almost skimming the waves of Lake St. Clair. Perhaps this risk would be eliminated on a straightaway—but perhaps also the development of speed in the airplane is beginning to outman the endurance of the human frame. It may be that men were not made to go so fast."

On the other hand, the contest was staged without an accident, which speaks well for another phase of airplane building.

Since that race Lt. Mangan traveled at a speed of 248 miles per hour. The United States is now practically epidemic proof. Dr. Hugh S. Cummins, head of the United States Public Health Service, declared that it would be extremely difficult for disease-carrying germs to get across the borders or the shores of the country.

All of the outposts of civilization are guarded; so are the ports of entry. It is all a part of the day's work for the scientists in this unique branch of government service.

No one took the Public Health Service seriously until the bubonic plague appeared in New Orleans and San Francisco. They sent special cars and special experts out there.

They discovered that the bubonic plague is a disease carried by fleas on the rats. In the first place they launched a wide spread campaign for the extermination of the rodents. The result of this has been the change of building regulations in the rat proofing of buildings.

The Public Health Service discovered first that most rats came from overseas ships in our harbors. The service decided at that time that it would be extremely advisable to restrict or prevent rats coming in and perfected regulations which are extremely effective today.

This is more or less history. Dr. Cummins said that the country had stood on the eve of a germic invasion, which had been repelled. It is no longer a secret that the health of the nation in America was threatened with bubonic plague at one time.

the Court to take the testimony in the three state cases and leave the same to the Court, with 500 of dollars, will set for the hearing of his case, at 11 o'clock in the Clearfield Trust Company Building at Clearfield, Pa., on Friday, the 2nd day of November, 1922, at ten o'clock A. M. when and where you may attend if you think proper.

Fall Ready-to-Wear Shows Countless New Style Movements

Countless new movements have been inaugurated in styles for women, and each has proved more acceptable than the last. There is still further departure from the old paths in respect to price, perhaps the most acceptable of all. Beautiful styles for every age—all at prices lower than those obtaining for garments of the same quality a year ago—are indeed the bearers of good tidings to the modern woman; and Leitzinger's take pleasure in furthering the new arrangement with a large and unusually comprehensive array of Frocks, Coats, Suits, Hats, Furs and other apparel for women.

First of All Is a Smart New
HAT

If you want to be in the proper frame of mind during this delightful Autumn Season. It is surprising what one pretty Hat can do to rejuvenate an entire wardrobe. There are lovely new Hats on display her of bewitching lines and ravishing color, and style so satisfying that few women will care to look further.

Priced from \$2.50 to \$18.00

:- SNUG KNIT UNDERWEAR :-

Combines Quality With Comfort and Attractiveness

The question of Knit Underwear in a heavier weight than summer has demanded, is all-important, now that brisk fall weather is here. These early fall days in the Underwear Section are splendid ones to examine and purchase the new knit undergarments. There are many interesting new details of trimming; some new weights. As you know, we carry only those well-known and thoroughly tested makes that stand for quality—the Munsingwear and Athena Brands, head the list of our nationally known makes of Women's and Children's Underwear.

Lion Brand Hardy-Hide Hunting Boots Will Protect Hunters' Feet

Every hunter should take the best of care of his feet and to do this you have got to have the best of footwear. Upon the care you give your feet depends the pleasure of your hunt. These boots are made of HARDY-HIDE leather which, for pliability and toughness, is second to none.

OFFICER'S STYLE HARDY-HIDE HUNTING BOOTS—

Made with 16-inch tops, with plain toe and welt sole \$9.00

ROUND TOED HARDY-HIDE 16-inch BOOTS—These are light tan, full-fitting toes, double stitched welt sole \$9.00

16-inch HARDY-HIDE SHOES—These are nailed soles. Brown only \$7.00

12-inch HARDY-HIDE SHOES—Welt sewed soles with 2 buckles at top \$8.00

12-inch HARDY-HIDE SHOES—Have nailed soles \$6.50

8-inch HARDY-HIDE SHOES—Welted soles with buckles at top \$6.00

OF COURSE WE HAVE THE GOLD SEAL RUBBERS TO FIT EVERY SHOE IN THE FAMILY FOR STREET WEAR. LOOK FOR THE "GOLD SEAL" STAMP.

MELLON ANNOUNCES STANDARD MELON IS NOT SUBJECT TO TAX

Washington, D. C., Oct. 19.—Secretary Mellon of the United States Treasury will rule that the stock dividend of the Standard Oil Company of New Jersey is not taxable. The Secretary takes the view that the 400 per cent stock dividend is merely a splitting up of the shares and does not add to their value, it was announced.

The accumulated profits have already been taxed under the excess profits rule and this stock dividend is merely a division and does not add to the value of the shares, it was announced.

A Hint to Spreaders.
"Yass," said the Maine Philosopher as the touring car flashed through the town at a 10 mile clip, "ez the Phil Piffins once said to his lady friend America, them ez likes coo cups on the ruts of life use a lot o' first-class brim-topster that might or et on th' way."

Guess Who

What's this man, our gentleman in a suit, our soldier, our officer, our hero? He's the great military leader, the world's greatest military leader.

Riches From Inventions.

Sir Henry Densmore, who invented the steel-making process, was a poor boy who went to London from a poor town to seek his fortune. Cyrus McCormick, who created the reaper and self-binding harvester, died worth \$20,000,000. W. L. Brant, a watch maker, he invented the time clock which keeps tabs on employees in factories and places of business, and it made him rich.

Found Wanting.

A New York visitor called us a "hick" because we have never seen a game of golf, but at the same time he confessed that he never saw a watermelon on the vine and couldn't tell when one was ripe. He was being naïvely dismissed from our baroque presence.—Houston Post.

Pests Always With Us.

"When a man crowd a room, get out of a hall, signs a letter, Branch editor, and you ever see a man in the doorway and a visit!"—Kansas City Star.

TRY SULPHUR ON AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night.

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declared a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowley's Mentho-Sulphur from any good druggist and use it like cold cream.

Any breaking out of skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right on, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Rowley's Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.

Advice to Office-Holders.

So live, O public servants, that you never are obliged to announce in a voice choked with emotion that you want the public investigation. (One state's motto.)

Not Hard to Pay That Rent.

A small farm in Scotland, in a generation ago, was held by its owner on the simple tenure of presenting to the sovereign of Scotland, when in the neighborhood, one white rose.

The Greatest Opportunity.

A little child is always a sacred charge, and there is no greater opportunity than to direct a young mind through wholesome growth to a realization of the abundance of life.

In a Better Law.

Should the caves of a man's house project over his neighbor's land, the latter may pull them down at once, according to British law, unless they have so projected for 20 years.

Society.

Society is like a burning house; a lot of people want to rush into it whether or not there is anybody they know inside.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Mrs. Sarah Ammerman, South street, is expected to her home suffering from an affliction similar to the disease which afflicted her. A number of Curwensville folks are affected by the same complaint.

Deputy Sheriff Hummel, South street, was up from the county seat yesterday on business pertaining to a back divorce case.

Curwensville friends were a trifle surprised yesterday to learn of the marriage of George Strator which took place at Clearfield on Wednesday morning, the bride being Miss Elva Kyler, of Bigler. The groom is quite well known in Curwensville he having worked several years in the Penra. Hide and Leather Co., about prior to his removal to Decatur township. His first wife was Miss Tillie Ammerman, deceased, of this town and a daughter of Mrs. Sarah Ammerman. May happiness and joy attend the newly weds, is the wish of George's many friends here.

Mrs. Able, wife of the manager of the Red Front store, spent part of last and this week with her daughter in Osceola.

There is considerable commotion going on among Curwensville citizens at present over the advisability of starting the paving on Walnut street from State to the turn of the road at Meadow street this late in the season. The contract for the work was let to the Thompson Construction company several months ago, on the strength that their contract would be finished in ample time to complete the Walnut street contract. Since their first contract is yet uncompleted the argument is advanced that to permit them to start the Walnut street job would be inadvisable as the bad weather would be upon them before half the job could be completed. It is also talked about serving an injunction on borough council if an attempt is made to tear up the street at this time of the year. Another argument set forth is that the contract was illegally sanctioned and made, from the fact that the contract was never publicly advertised for bids. Be that as it may, it is authentically stated that the borough will never have another such an opportunity to get that street paved as cheaply as now for the reason that the property owners residing on both sides of the street agree to pay two

thirds of the entire cost; the bricks to be used have been taken off the line of Susquehanna avenue and Filbert street and will cost only the sum of putting them on the ground. Even though the season is far advanced, it is better to take a gambler's chance on weather conditions than to allow the dirt street to remain as it is.

From a reliable source the writer is informed that three Curwensville young men met with a disastrous auto smashup on the State Highway between here and Clearfield about three o'clock yesterday morning. J. P. Irvin, George Sloppy and Hugh Way were in the machine. Something went wrong with the machine's mechanism and it tried its best to climb a telephone pole. None of the occupants were injured but the automobile which belonged to Irvin, was badly demoralized and put out of commission.

Prof. Paul Zetler and his sister Miss Pearl Zetler, teachers in our public schools, were called to Reynolds today to attend the funeral of their grandmother who died at the ripe old age of eight-seventy years.

Mr. and Mrs. William P. Baum, of Pittsburgh, are visiting at the home of Mr. and Mrs. Grant Norris this week. Mrs. Baum is the only sister of Mrs. Norris. They will return to their city home on Saturday.

Education week this year will be observed from December the 4th until the 8th. The American Legion is already active in co-operating with the schools in making this week a typical education week. Keep the date in mind. Efforts are being made to get some distinguished men here during that week.

Miss Ollie Moore was not able to teach in her school room on Monday on account of illness. Miss Marjorie Wall conducted her room duties for her during the day. Robert Humphries taught school for Miss Pearl Zetler during her absence yesterday. Prof. Norris conducted the classes for Prof. Zetler.

Reported From the School Room

Prof. Norris said in his address Monday morning to the foot ball team that he did not think any more of the team now than he thought of them after the defeat at Williamsport nor any more of them than he thought

of them after the defeat at Indiana, but that the team had made him feel a whole lot better by defeating the Hollidaysburg team. This is putting the matter exactly as it should be. We now have a real High School Foot Ball Team, spelled with capital letters, and while Curwensville cannot think any more of them than she does now think get the team will from this on keep us all feeling good, then better, the BEST. Can you guess when this "BEST" feeling is coming?

Please do not forget the game Saturday of this week with Reynolds. This promises to be an excellent game. Come out and help the boys make you feel good.

Fire drills were executed in all the buildings this week. The State Law requires that fire drills shall be conducted in school buildings at least once a month. The wise provisions of this law need not be argued, although the schools were severely criticised this week for taking this time for fire drills. It should be stated, however in all fairness to the patrons of Curwensville that only one person made the criticism. There may have been others but the writer does not know of them. Occasionally we hear the remark that the schools are not what they used to be. Nothing true was ever said, but often the person making the remark seems to think that the good old days were the best. Prof. Grant Norris was approached on this subject this week. He said that the schools today are as much

better than they used to be as the roads, as the means of travel, as the means of communication, as the work of steel and millions of miles of wire binding our continent together are better than most roads and wagon tracks, mail coaches and riding the circuit. The boys and girls in the schools today can read better, spell better, write better, figure better. I look better than the boys and girls of the good old days. We would advise that you do not rub Mr. Norris too hard on this subject. He is anxious to prove it.

This week the high school students are writing essays on the subject, "Better School Facilities." Next week the schools will present to the public the real needs and how this need can be met. The school board will meet next Monday night to discuss the school question and establish a line of activity in the building program. We understand that it is the object of the school board to erect a new school building that will take care of the school population of Curwensville and surrounding vicinity for a number of years. The school board is averse to any temporary structure. It has avoided all unnecessary expense this year. Perhaps buildings could have been placed on the present grounds, but this would have cost at least \$6000.00. The board felt that it would be better to save this money and put it into a more permanent structure. The Quaker

church could have been fixed up at a cost of about \$2500.00 but the board did not like to spend this much money just for one school term. Everything has been done possible to conserve money, and the board is determined that the tax payers shall have something permanent and full value for every cent expended. Even at this the bond issue will provide less than is really needed at this time in order to build well for the future, but with careful planning to take care of the educational needs for a long time. In voting for the bond issue it is plainly understood that the money is to go into a permanent building for Curwensville. The State Board of Education thru the architectural department is taking an active interest in the matter. One plan has been submitted which seems out of the question at this time. Another plan is in course of preparation which will be on hand in a couple of weeks. After the board meeting next Monday night we hope to submit to the tax payers of Curwensville a more comprehensive statement. The object of the board is clearly stated in the advertisement of the election. It is hoped that the tax payers will make this a careful study and be able to assist the board in its undertaking.

Say it with a Progress Want Ad.

Have You Tried A Hudnut Compact?

They came in just when the metropolitan papers told you all about them and they are making good every time they are bought. The generous cake of rouge and the more generous cake of powder, combined with the little mirror in each lid, is making a hit.

C. R. BLOOM

This is your opportunity to place a new GREAT MAJESTIC RANGE in your kitchen at a real bargain

Look at these two fine sets of cooking utensils! Either set may be yours absolutely without cost, just for deciding to buy your Great Majestic Range next week instead of later.

Polished Solid Copper Set

The set illustrated at top of this advertisement is of pure heavy copper, highly polished and of exquisite design. Every woman falls in love with it on sight—don't fail to drop in and see it.

Special Majestic Ware

This wonderfully serviceable ware, illustrated to the right, is well known by thousands and thousands of Majestic Range users, it is the highly prized, extra heavy, old time Majestic Set, the same as furnished before the war.

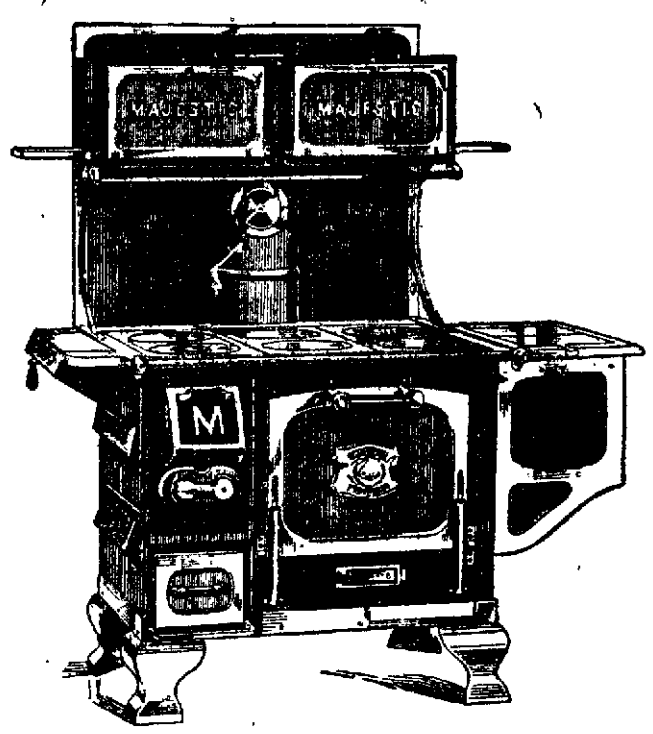

Great Majestic Range Demonstration

ONE WEEK ONLY, OCTOBER 23rd to 28th.

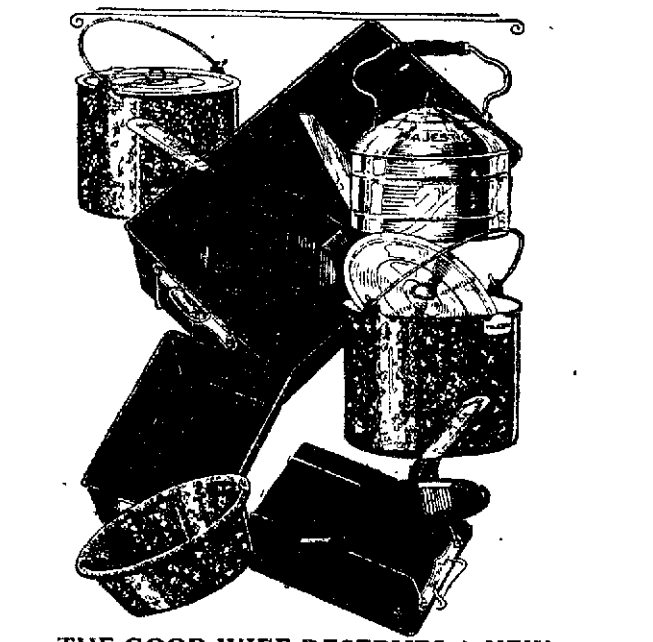

Don't put up any longer with that half-satisfactory or played-out stove or range. Here is your opportunity to get a Great Majestic Range, one you will be proud of, at our latest after-war reduced prices. The cooking utensils are thrown in absolutely free, during this week only. It is the opportunity you have long looked for to get the range you have often dreamed of. You will be money ahead by taking advantage of this special offer now.

Come to our demonstration while the factory man is with us, we want you to see the New and Beautiful Majestic, and know why it is so highly recommended by over a million users. Let the factory man show you just how and of what the Majestic is built, you will marvel at the difference between this "Range with a Reputation" and other flashy and new-fangled ranges.

Majestic Ranges are made in many styles and sizes—reservoir on right or left—while, blue or grey enameled finish.

The Range With a Reputation

THE GOOD WIFE DESERVES A NEW MAJESTIC IN HER KITCHEN

It lessens her work and worry. Its exquisite beauty, great water heating and baking qualities, gives joy and happiness to the whole family, three times a day, every day in the year, for years and years to come. Certainly this is worth considering when you know the Majestic costs less per year than any other range on earth.

FREE TO BOYS AND GIRLS

We will have a quantity of interesting Majestic word puzzles, from which you will get bushels of fun. Come to our store between

3:30 and 4:30 P. M. Monday and get one. Every boy and girl is welcome.

RULES FOR CIDER MAKING OUTLINED TO PROTECT FARMER

During the past several weeks the Pennsylvania Department of Agriculture has been deluged with requests for information concerning the latest rulings on the manufacture of cider. Farmers in the apple belts of the State were anxious to convert their excess apples into cider but were fearful of running afoul of the prohibition laws.

J. T. Davis, Federal prohibition director for Pennsylvania, has furnished Secretary of Agriculture Fred Rasmussen copies of the latest rulings governing the manufacturing of cider for home use and also for commercial purposes. These rules follow, in part:

No permit or bond is required for manufacture of non-intoxicating cider for use in the home.

Apples may be taken to the public cider mill and the cider made from such apples may be taken from the mill to the home before it contains alcohol to the extent of 1-2 of 1 per cent by volume. Such non-intoxicating cider must be used exclusively in the home.

The phrase "non-intoxicating" as used in connection with cider used in the home is held to mean non-intoxicating in fact, and not necessarily less than 1-2 of 1 per cent. of alcohol.

The cider in the home may be allowed to turn to vinegar if the owner desires, provided he adds no sugar or other fermentable substance to the cider or fruit juices to increase the alcoholic content thereof, inasmuch as such practice is held to constitute a mash fit for distillation within the provision of Section 3282 Revised Statutes; he may sell said vinegar to any one who may desire to purchase it. Cider made and used in the home is not subject to tax under the Internal Revenue Law.

Cider may be sold in bulk containers for use in the manufacture of vinegar or apple butter so long as it contains less than 1-2 of 1 per cent. of alcohol by volume.

Purchasers of such cider in bulk must furnish the seller a written order showing the kind and quantity to be furnished and stating that the alcoholic content is to be less than 1-2 of 1 per cent. by volume. The name and address of the purchaser and the order must be stated in such written order. These orders must be permanently filed by the seller and must be open to inspection by the Internal Revenue and Prohibition officials.

A label showing all the facts above stated must be attached to each container.

Beecham's Pills
Keep you fit

REDUCING WASH "DAY" TO "HOUR"

Here's a simple, economical way to reckon your family washing by a couple of hours instead of days—

Let us call for your whole bundle. We'll gently wash everything in pure, rainsoft water, thoroughly rinse everything, dry everything.

Then we'll starch the pieces that need it, fluff the woolens and bath towels ready for use, and iron the flat work beautifully smooth.

All the heavier work is finished. There only remain a few personal things for you to do at your leisure.

We call this our Rough Dry Service. Its reasonableness will please you.

Phone us today, and we'll have our representative further explain this service.

Subscription \$2.50 (Tax Included)

EXTRA LADIES 50c

Presented by "THE BOOKERS"
THE BEST DANCE MUSIC YOU'VE EVER HEARD

tailor.

Sweet cider intended for use as a beverage should be sterilized or preserved and be put up in sterilized glass bottles or other similar closed containers to insure the alcoholic content remaining less than 1-2 of 1 per cent. by volume until consumption.

Manufacturers who sell sweet cider in bulk containers such as barrels, for use as soft drink are held responsible for preserving and marketing it in such manner as will insure the alcoholic content remaining less than 1-2 of 1 per cent. by volume until consumed.

If such cider is found upon the market containing 1-2 of 1 per cent. or more alcohol by volume, the burden of proof is upon the manufacturer to show that the cider contained less than 1-2 of 1 per cent. of alcohol by volume at the time it was manufactured or sold by him, or withdrawn from the place of manufacture.

Fruit Juices For Home Use.

Any person may, without permit, and without giving bond, manufacture non-intoxicating fruit juices, and in so doing he may take his fruits to a custom mill and have them made into fruit juices. After such non-intoxicating fruit juices are made, they must be used exclusively in the home and when so used, the phrase "non-intoxicating" means non-intoxicating in fact, and not necessarily less than one-half of one per cent. of alcohol.

All persons producing fruit juices (other than cider) containing 1-2 of 1 per cent. or more of alcohol by volume are required to register with the Collector of Internal Revenue.

The head of a family who has properly registered may make 200 gallons of fruit juices exclusively for

his own family use in his home without payment of tax thereon. If he makes more than 200 gallons he must give bond, and pay tax on the excess. If such excess quantity is intoxicating, double the ordinary tax is due.

Dried fruits such as raisins may not legally be used in the manufacture of such non-intoxicating fruit juices.

Superstitious Chinese.

The Chinese are probably the most superstitious race on earth. They have a strong belief in all sorts of spells and charms. The average Chinaman also has great faith in deities, and frequently spends a large part of his income on medicine.

Women in Municipal Council.
The municipal council of Amsterdam includes five women.

Caring for House Plants.

House plants should be set out in the rain whenever convenient. For spraying use one teaspoonful of nicotine (black leaf 40) to one gallon of water, and one-fourth pound of whale or fish oil soap. Spray every ten days until insects disappear.

Peculiar Rent Clause.

A plot of ground in London was once let to the British admiralty on condition that a ship was to be always on the stocks. Failing to do this, the land would revert to its former owner and in the deed a clause was inserted to this effect:

MOXLEY'S DIXIE
MARGARIN
RICH IN VITAMINES

No Monotony About That.

A woman sued her husband for divorce because he has forced her to move 62 times in 12 years. And some women complain that married life is monotonous.

Studebaker

Comparison Will Emphasize Its Value

The Studebaker Big-Six Sedan delivers everything you can ask of a motor car.

If you pay more than the Big-Six price, you may buy more weight, but it is impossible to get finer materials or better craftsmanship than are used by Studebaker.

Compare this Big-Six Sedan with the most expensive cars. Check the body with any body built, compare the chassis construction, look into the endurance records of the Big-Six as compared with any other car.

Get behind the wheel yourself. Test its performance, its comfort. Check its appearance with any car at any price. And don't overlook this point: Studebaker has more than 3,000 branches and dealers throughout the country who are always ready to render efficient service.

And finally, compare the equipment and appointments.

Consider the Big-Six Sedan as an investment. There is no reason to pay more. The name Studebaker stands for satisfaction.

THIS IS A STUDEBAKER YEAR

Peanut Brittle
Again On Sale

During the summer it was logical that we did not make our good peanut brittle, for to make it stand the heat we would have had to put in some adulterant. Now that it is colder we can make it and you'll find it's mighty good.

Stewart's Drug Store
Store

"FEEDS—FEEDS—OATS—OATS"

Save one quart of Oats on each feed by feeding your horses our Re-cleaned Heavy White Oats in 80-pound bags. We also have Yellow Roller Meal, Corn and Oats Chop half and half, Shelled Corn, Cracked Corn, Bran, Middlings and Dairy Feeds. Just unloaded another car. All our feeds are of the finest quality.
